FUNCOM N.V.

(A Dutch public limited liability company incorporated and organized under the laws of the Netherlands, registered with the Commercial Register of the Chamber of Commerce (*Handelsregister van de Kamer van Koophandel*) under registration number 28073705)

Listing of 95,970,000 New VPS Shares and 42,777,778 Conversion VPS Shares, issued in a Private Placement and through a Debt Conversion

Offering of up to 15,000,000 VPS Offer Shares in a Subsequent Offering to Eligible Shareholders

The Company is offering up to 15,000,000 VPS Offer Shares in the Company with a nominal value of EUR 0.04 each at a subscription price of NOK 0.55 per VPS Offer Share. Holders of the Company's Shares (save for the VPS Registrar in its capacity as VPS Registrar) as of 30 June 2016, as registered in the VPS and the Company's shareholders' register in the Netherlands as of 4 July 2016 who are not resident in a jurisdiction where such offering would be unlawful, or would (in jurisdictions other than Norway) require any prospectus filing, registration or similar action (the Eligible Shareholders) are being granted tradable Subscription Rights that, subject to applicable law, provide preferential rights to subscribe for and be allocated VPS Offer Shares in the Subsequent Offering. Eligible Shareholders will be granted 0.0649 Subscription Rights for each VPS Share held. Each Subscription Right will give the right to subscribe for one (1) VPS Offer Share. The Subscription Period commences on 5 July 2016 and expires on 8 August 2016 at 16.30 CET.

Subscription Rights not sold prior to 16.30 CET on 4 August 2016 or used to subscribe for VPS Offer Shares prior to 16.30 CET on 8 August 2016 will lapse without compensation to the holder and consequently be of no value.

The Company is not taking any action to permit a public offering of the Subscription Rights or the VPS Offer Shares in any jurisdiction outside of the Netherlands or Norway. The VPS Offer Shares are being offered only in those jurisdictions in which, and only to those persons whom, offers of the VPS Offer Shares (pursuant to the exercise of Subscription Rights or otherwise) may lawfully be made. For more information regarding restrictions in relation to the Subsequent Offering pursuant to this Prospectus, please refer to Section 14 "Selling and Transfer restrictions".

In order to facilitate registration of the Company Shares issued in connection with the Private Placement and the Debt Conversion with the VPS, and hence trading of the New VPS Shares and the Conversion VPS Shares on Oslo Børs, such Company Shares were registered in the name of the VPS Registrar in the Company's shareholders' register in the Netherlands. The same arrangement will be made in respect of the VPS Offer Shares. On this basis, the VPS Registrar registered in respect of the Company Shares issued in connection with the Private Placement and the Debt Conversion and will register in respect of the new Company Shares to be issued in connection with the Subsequent Offering, depositary interest, in book-entry form, in those Company Shares with the VPS. Therefore, it is not the underlying Company Shares as such, but depositary book-entry form interests in those shares, that were or will be registered with the VPS and which are or will be tradable on Oslo Børs. The majority of the Company's existing Company Shares have been registered in the VPS and are tradable on Oslo Børs under the same arrangement as described above. References in this Prospectus to "VPS Shares" in the Company being listed or traded on Oslo Børs shall, where the context so requires or permits, mean the depositary book-entry form interests in those shares and references in this Prospectus to "Company Shares" means the underlying shares registered in the Company's shareholders' register in the Netherlands.

The same arrangement will be made in respect of the Company Shares to be issued in connection with the Subsequent Offering. The Company's VPS Registrar is DNB Bank ASA, Verdipapirservice, Dronning Eufemias gate 30, P.O. Box 1600 Sentrum, 0021 Oslo, Norway.</p>

		The New VPS Shares, the Conversion VPS Shares and the VPS Offer Shares will have the same VPS Registrar and the same ISIN Number as the Company's other VPS Shares (international securities identification code NL 0000062461).

The General Meeting may also designate the Supervisory Board to resolve to limit or exclude the rights of pre-emption in relation to the issuance of Shares. Pursuant to the Articles of Association, the designation by the General Meeting may be granted to the Supervisory Board for a specified period of no more than the period up to and including the first ordinary General Meeting which is held after three full calendar years have elapsed since that designation was granted and only if the Supervisory Board has also been designated or is simultaneously designated the authority to resolve to issue Company Shares.</p> <p>The rights described above apply for the Company Shares pursuant to Dutch law and the Company's Articles of Association. Therefore, it is not the shares in registered form issued in accordance with the Dutch Civil Code, but the beneficial interests in such shares in book-entry form (<i>i.e.</i> the VPS Shares) under the category of a "share" that are registered with the VPS, listed and traded on Oslo Børs.</p> <p>Neither the Company Shares nor the VPS Shares are listed on any other regulated market and Funcom does not intend to seek such listing.</p>

However, the Supervisory Board considers that any surplus cash should be retained with the Company and invested in the development of Funcom's games. Future distribution of dividends are not foreseen and will only be possible if the equity and liquidity position allow such distributions and the Bondholders and KGJI (in its capacity as creditor under the Convertible Loan) has consented to such distribution (as the Bond Agreement and the Convertible Loan agreement contains restrictions on distribution of dividends).

		The Company has not paid any dividends for the period covering the historical financial information.

Holders of the VPS Shares are entitled to a share of the surplus (if any) in proportion to the number of VPS Shares owned by the holder in the event of a liquidation of Funcom.</p> <p>The beneficial owners may be entitled to attend and vote at General Meetings on the basis of a proxy from the VPS Registrar.</p> <p>The VPS Shares will rank <i>pari passu</i> in all respects with each other in relation to the Company Shares, including voting rights, entitlement to dividends, liquidation proceeds in case of our liquidation, subscription or pre-emptive rights in the event of a share issue and pre-emptive rights in the event of the issuance of equity-linked securities. 2 RISK FACTORS

Before investing in the Company, investors should carefully consider all of the information contained in this Prospectus, and in particular the following risk factors, which may affect some or all of the Company's activities, the industry in which it operates and the Company's securities. Any of these risks could have a material adverse effect on the business, operating results and financial condition of the Group and, as a result, the value and trading price of the Company's Shares may decline, which could in turn, result in a loss of all or part of any investment in the Shares. Furthermore, the risks and uncertainties described below may not be the only ones the Group faces. Additional risks and uncertainties not presently known to the Company or the Group or that the Company or the Group currently deems immaterial may also impair its business, financial condition and results of operations in the future. Investing in the Company involves inherent risks. This Section 2 "Risk Factors" contains an overview of the risk factors that are known to the Company and considered material by it. Investors should consult their own expert advisors as to the suitability of an investment in the Company's Shares.

An investment in the Shares is suitable only for investors who understand the risk factors associated with this type of investment and who can afford a loss of all or part of the investment.

If any of the following risks materialize, the Company's business, financial position and operating results could be materially adversely affected, which may cause a decline in the value and trading price of the Shares that could result in a loss of all or part of any investment in the Shares.

The order in which the risks are presented below is not intended to provide an indication of the likelihood of their occurrence nor of their severity or significance.

2.1 Revenue risks

2.1.1 Dependence on performance of individual games and in particular the Live Games

Funcom's medium and long term financial performance, including future income, may be highly influenced by the performance of individual games, especially the performance of the current Live Games and new games to be released in the future. Under the new Funcom strategy (as described in section 7.3 "The new Funcom strategy"), Funcom will develop both smaller and larger games, such as *Conan Exiles*. As Funcom has not yet released any larger games under the new strategy, it does not currently know if it will be dependent on any single game. However, Funcom expects that the financial performance of the Company will be materially dependent on the performance of its larger games, including *Conan Exiles*.

Funcom's medium and long term financial performance are also dependent on a number of other factors related to its games, such as development costs, license costs and successful development of new content for the current Live Games. If some of Funcom's games attain low revenue numbers (*i.e.* only produces sufficient revenue to cover Funcom's investment in the game) there may be a negative impact on future cash flows and the valuation of Funcom. In particular, the Live Games have historically been the main revenue contributor for Funcom. Furthermore, the games in development are intended to be funding sources for the development of new games, and lower cash inflows than expected could also have an indirect effect in terms of reduced revenues, earnings and cash flows from new games and the future funding requirements of the Company.

It is in the nature of computer games, including Funcom's Live Games, that they produce slowly declining revenues over time due to the ageing of the games. There is, thus, a risk that Funcom's Live Games will not produce sufficient revenue in the future if the Company is not able to retain the players of its current Live Games, for example due to ageing or Funcom not being able to produce updates or new content for its current Live Games. There can be no assurance that Funcom is able to develop new games that produce sufficient revenue.

2.1.2 Dependence on the attractiveness of brands used for the games

The success of the new games is dependent on the attractiveness of the brands used for the games. The developments of these brands are often influenced by factors outside of Funcom's control, such as the creative processes of the licensor (if the brand is licensed), development of new content or products under the brand and general market perception. There is a risk that such factors may affect the performance of Funcom's games negatively.

2.1.3 Dependence on consumer satisfaction

The commercial success of Funcom's games is to a high degree dependent on consumer satisfaction. Consumer satisfaction is dependent on the perceived fun factor, quality of service of the support and error correction services. Even though the Company strives to ensure high consumer satisfaction there is a risk that the consumers will be unsatisfied with Funcom products, the support and the number of bugs and errors in the products. Consumer satisfaction may also be affected by the gaming community related to the game.

2.1.4 Rating risks

Funcom is, as a developer of mature games, exposed to the risk that rating agencies in the various markets will set the allowed age level to play the Funcom games too high or too low and thereby potentially limiting the addressable market. Rating agencies, including the Entertainment Software Rating Board⁹, may also change their rating policies, or fine Funcom for rating breaches, although Funcom always strives to adhere to rating regulations. Funcom may also receive the attention of regulatory compliance organizations, such as the US Federal Trade Commission which enforces the Children's Online Privacy Protection Act, focusing on the gaming industry, both through public relations campaigns and through legal procedures. Actions of disloyal employees or outside parties by introducing unknown and controversial material into the games of the Company may constitute a risk for penalties or other actions from rating agencies.

2.2 Operational risks

2.2.1 Launch risks for online games

The number of players of newly launched games may increase rapidly over a short amount of time, which may imply risks of technical failure within the games if the game servers cannot support such increase in number of players. Historically, the launch of Funcom's games have not encountered such problems, but the Company cannot exclude the possibility that future launches will encounter such problems. This may lead to a negative consumer perception of the game.

⁹ For more information on the Entertainment Software Rating Board, please refer to www.esrb.org.

Even though the launch of a game may be successful initially, there can be no assurance that Funcom succeeds in creating additional content for the game and thereby retaining the players.

2.2.2 Delay of product releases

For the current development projects, the Group has a strong focus on making plans, analyzing risks, estimating time needed in each project phase and measuring progress. There is, however, an inherent development timeline risk in all software development, including in game software development, and there is no assurance that development schedules will be held. If the Group does not manage to release games at the planned dates, the development budgets of the games may increase. There is also a risk that competitors will gain a foothold in the market at the expense of the Group or that the games will be less competitive when launched due to advances of competitors, making users less willing to spend additional time and money on new games from the Group.

2.2.3 Unsuccessful projects under development

Currently, there is a large number of online games in development and operation worldwide. Hence, consumers have and will have a number of options to choose between. Through the history of online games, the market has never accommodated many top-selling products at any one time, although that number is growing. With its upcoming game, *Conan Exiles*, the Company is moving into the segment of "Open world, online, multiplayer Survival games". Even though the number of serious competitors to Funcom in this online space is limited, there is a risk that one or more of Funcom's games within this segment could be unsuccessful. Within this games segment, Funcom's competitors include developers such as Daybreak Game Company, Bohemia Interactive, Facepunch Studios Ltd. and Studio Wildcard. For games developed within other segments, there are a number of competitors which increases the risk that future games will be unsuccessful. In the other segments where Funcom competes, examples of competitors include Activision Blizzard, Electronic Arts, Ubisoft, Bethesda Softworks and Take-Two Interactive.

2.2.4 Reviews

The commercial success of Funcom's games may be, to a high degree, dependent on favorable reviews by gaming publications and consumers. Should Funcom fail to meet the expectations this may have a negative effect in the review scores of its game and thereby potentially on the sales potential of the games.

2.2.5 Competition

The market for Funcom's games is exposed to competitors. The competitors may develop more popular games and achieve higher attention from the customers in the computer games market. Competing games may render the products of Funcom obsolete or limit the ability for Funcom to generate revenue from their products.

2.2.6 Difficulties in recruiting and loss of key employees

Funcom is dependent on the ability to recruit, motivate and retain highly skilled technical, managerial and marketing personnel. Funcom may experience difficulties in recruiting, motivating and retaining the necessary expertise and key employees, or may need to pay higher compensation, which could adversely affect operating results. Further, it should be taken into consideration that

work permits can be difficult to obtain. There is also a risk of losing vital information if key employees, for various reasons, leave Funcom.

2.2.7 External parties

Funcom's success depends also partly on the ability of the Company's partners to effectively fulfill their commitments, including the distribution services offered by Steam, the continued licensing from Conan Properties Inc. of rights to utilize intellectual property related to Conan the Barbarian and the continued right to use the Unreal 4 graphics engine. Funcom also has partners in the areas of hosting and server administration, billing, publishing, sales and distribution, hardware as well as development of technology and games.

2.2.8 Difficulties in enforcing the Company's intellectual property and proprietary rights

Funcom relies on a combination of trade secret, copyright and trademark laws, non-disclosure agreements and contractual provisions to protect its proprietary rights. International copyright and trademark laws protect Funcom's technology. Existing trade secrets and copyright laws afford only limited protection, and unauthorized parties may attempt to copy aspects of Funcom's proprietary rights or to obtain and use information and technology that Funcom regards as proprietary. In addition, the laws of some foreign jurisdictions do not protect Funcom's proprietary rights in the same manner and to the same extent as the laws of the Netherlands, the United States and Norway do. There can be no assurance that the steps taken by Funcom to protect its proprietary rights will be adequate.

2.2.9 Intellectual property rights of others

Funcom operates in a competitive industry. Technology is evolving at a fast pace and innovating companies develop solutions in relatively close technological proximity. This poses the risk that the Company could inadvertently encroach upon the protected rights of others, including rights protected by patents. This is the nature of the industry in which Funcom operates. Funcom is aware of the fact that there may be patents potentially forming basis of infringement claims. United States patents and/or litigation in the United States are particularly worrisome because there are a large number of United States software patents in existence. There is also to a greater extent a culture for opportunistic patent litigation in the United States. Infringement on copyrights, design rights and trademark law could surface as well. There is always an inherent risk of substantial claims related to infringement of intellectual property rights. If any claims of infringement of intellectual properties are submitted towards contract parties from which Funcom licenses intellectual property, this could also have a negative impact on the rights and obligations of the Company under any such contract.

2.2.10 Loss of reputation

Any negative publicity related to the Company or its partners could adversely affect its reputation and the value of the Company's intellectual property. The Company is exposed, among others, to the risk that litigation, consultants, employee or officer's misconduct, operational failures, disclosure of confidential information, negative publicity, whether or not founded could damage the Company's reputation. Any erosion of the Company's reputation may have a material adverse effect on its business, revenues and results of operations or financial conditions.

2.3 Technical risks

2.3.1 Dependency on the *Dreamworld Technology*

The Company is dependent on the *Dreamworld Technology* to generate revenue, as this technology forms the basis of the games developed and published by Funcom, including its Live Games. The *Dreamworld Technology* provides Funcom with a unique competitive advantage by enabling more flexible, faster and more predictable development and deployment of upcoming games. Funcom is continuously striving to further develop and improve the *Dreamworld Technology*, including by making the *Dreamworld Technology* compatible with third-party software such as the Unreal 4 software engine.

If the Company is not able to utilize the *Dreamworld Technology* in the future or is not able to develop the *Dreamworld Technology* further, including making the *Dreamworld Technology* compatible with appropriate third-party software, in order to meet the standards of future video games, the Company will incur additional development costs and may experience lack of revenue.

2.3.2 Technological risks

Any game is heavily dependent on the underlying hardware configuration of the device running the game. Funcom's games support a variety of hardware platforms capable of running the games and each platform can have multiple configurations of its hardware. The number of combinations of platforms and configurations is such that it is unfeasible to guarantee optimal game performance on them all and thus there is a risk that specific configurations do not perform as well as specified and have an adverse effect on Funcom's ability to gain revenues.

Additionally, online games depend on a large number of complicated hardware and software components that need to work successfully together. Any errors, bugs or viruses in any software may harm the operation of the online game and thus have an adverse effect on Funcom's ability to gain revenues. Similarly, any errors, power failures, shortcuts etc. in any hardware component may harm the operation of the online game and thus have an adverse effect on Funcom's ability to gain revenues. Although Funcom endeavors to reduce the technological risks before a game launch and during the operations of a game, these risks will always be present to some degree at launch.

2.3.3 Hacking

Funcom's online games may be subject to hacking activities. Any hacking activity may affect Funcom's ability to operate their online games, which will affect Funcom's ability to gain revenues.

2.3.4 Risks related to the internet

Funcom's online games are operated on the Internet, as are the digital stores responsible for most of Funcom's games sales. Funcom considers itself materially dependent on the Steam online distribution client for computer games. Funcom's revenues are therefore dependent on the continued and uninterrupted operation of the Internet. Any adverse incident, hereunder but not limited to bugs, viruses, worms, power outages, government restrictions, etc. affecting the Internet may affect Funcom's ability to gain revenues.

2.3.5 Theft or loss of source code

Funcom's source code is stored in a fireproof safe, but is also available to employees working on the Company's games. Should all or parts of the source code be stolen or lost, this may affect Funcom's ability to gain revenues or reduce its technological edge in the market.

2.3.6 Piracy

Funcom's games are subject to digital piracy, where consumers obtain an illegal copy of the game instead of purchasing it from an accredited store. Funcom's online games with strong server-based gameplay are less affected by this issue, but any single player or limited multiplayer games will potentially be affected.

2.4 Economic risks

2.4.1 Macroeconomic fluctuations

Funcom is exposed to the economic cycle, since changes in the general economic situation could affect demand for Funcom's products. Computer games are used for entertainment and therefore the demand may decline during recession when disposable income decreases.

2.4.2 Variability of operating results etc.

Funcom's operating results may vary from month to month. Funcom's operating result may be hard to forecast due to unpredictable demand for its products, the competitive environment, other general economic and market conditions and unanticipated difficulties in pursuing Funcom's business strategy.

2.4.3 Changes in the gaming industry in general

The market for Funcom's products and services is competitive and trend oriented. Failure of Funcom to maintain competitive products and services offering could have a material adverse effect on Funcom. If the generally expected market growth fails to materialize, the profitability of the games is likely to suffer.

2.4.4 Contracts

Several of the agreements entered into by Funcom are governed by the laws of jurisdiction in which Funcom does not have a presence. In addition, dispute resolution is set to venues in different places in Europe and the US. This may increase the legal risk and increase the costs in connection with the enforcement of any specific agreement.

2.4.5 International operations

Operations in international markets are subject to risks inherent in international business activities, including in particular general economic conditions in each such country, overlapping differing tax structures, managing an organization spread over various jurisdictions, currency fluctuations, and unexpected changes in regulatory requirements and complying with a variety of foreign laws and regulations.

2.4.6 Currency fluctuations

Because a considerable share of the Group's business is conducted in currencies other than its functional currency, Funcom will be exposed to volatility associated with foreign currency exchange rates. Funcom invoices all non-EU customers in US dollar and Russian ruble, while EU customers are invoiced in Euro, British pound or Polish zloty. Normally, the Group's cash position in Norwegian kroner and US dollar is significant compared to its total assets.

The majority of the operational expenses is denominated in Norwegian kroner and US dollar and is perceived by the Executive Management as a natural hedge against the large position in Norwegian kroner and US dollar. However, the Company does not currently use any financial instruments to hedge its exposure to foreign exchange rate risks arising from operational, financing and investment activities.

2.4.7 Tax exposure

The Company is incorporated in the Netherlands with subsidiaries in Canada, Norway, Switzerland¹⁰, China and the United States. The overall tax charge will depend on where profits are accumulated and taxed since these countries have different tax systems and tax rates. The Group is today taxed under a number of different legal systems with different laws for tax residency, tax credits and tax exemption rules. Consequently, the Group is exposed to changes of tax policies and changes of tax legislations, proactively and/or retroactively. The Company is of the view that it reports profits and losses in accordance with tax rules applicable to the Group. The tax authorities in the jurisdictions where the Group operates are not bound by the judgment of the Company, and there can be no assurance that they will agree to it. If one or more of the relevant tax authorities challenges the Company's view, this may result in an increased overall tax charge.

2.4.8 Sales tax exposure

The Group generates sales transactions from potentially all over the world. Because of this, the Group is exposed to different sales tax issues, including VAT issues. On 1 January 2015 a new EU VAT regulation came into force where electronic services will be taxed in the country where the customer is established rather than where the service provider is located. This change in regulation created VAT exposure in different EU states and increased the overall amount of VAT to be remitted given the difference in VAT rates in each state. The Group obtains from its payment service providers relevant information to calculate and process VAT payments. However, should the Group fail to comply with the different regulations it might lead to real cash costs, including irrecoverable VAT, penalties, and interest.

2.4.9 Deferred tax asset

The Group's tax losses are primarily located in the Swiss subsidiaries and in the Company. The Executive Management has discussed to which extent the Group will be able to utilize the deferred tax asset, and has adjusted the amount in the statement of financial position accordingly. In

¹⁰ The subsidiary in Switzerland is currently in a liquidation process. The liquidation process is expected to be finalized in the second or third quarter of 2016, as soon as the Swiss Trade Register has cancelled its registration. Such cancellation will only occur as soon as the various tax authorities have confirmed their agreement with that cancellation. At the moment the subsidiary is awaiting final tax forms to be submitted.

evaluating the Group's ability to utilize the deferred tax assets, all available positive and negative evidence has been considered, including past operating results, the existence of cumulative losses in the most recent fiscal years and our forecast of future taxable income on a jurisdiction by jurisdiction basis, as well as feasible and prudent tax planning strategies. These assumptions require significant judgment about the forecasts of future taxable income and are consistent with the plans and estimates the Executive Management are using to run the underlying businesses.

There can be no assurance that the Group is able to utilize its deferred tax assets.

2.4.10 Tax credits

The Company receives small amounts of tax credits for their technology research efforts in Norway (*Skattefunn*) and continues to explore additional incentives in different countries to help fund the game and technology development. There can be no assurance that the Company will be eligible for such tax credits in the future.

2.5 Financial risks

2.5.1 History of operating losses

The Group has a history of operating losses mainly as a result of the significant investments made in the Company's games and proprietary game engine *Dreamworld Technology*. The Company's strategy going forward is to focus on developing and releasing multiple games per year, smaller and innovate games in addition to larger online games. The long-term goal is to produce titles in parallel releasing more than one game a year. The strategy is expected to restore the profitability and the liquidity of the Company, however, no assurance can be given that the change of strategy will in fact have this effect. Until the goals under the new strategy are achieved the performance of the Company will be affected by its ability to raise external financing in the form of equity issuance or non-dilutive debt instruments. The timing and amount of such financing will depend on market conditions and compliance with financial indebtedness restrictions as well as the Company's overall performance, which could affect the investors' confidence and willingness to invest in the Company.

2.5.2 Additional capital needs

The Company may require additional capital in the future pursuant to its business plan, due to unforeseen liabilities or in order for it to take advantage of opportunities that may be presented to it. Further, negative developments in sales or production cost may lead to a strained liquidity position and the potential need for additional funding through equity funding, debt financing or other means. Any additional equity financing may be dilutive to Existing Shareholders. There can be no assurance that the Company will be able to obtain necessary funding in a timely manner and on acceptable terms. Further, the Company's existing financing through the Bonds contain financial indebtedness restrictions which limit the amount of debt financing which may be raised without consent from the Bondholders.

2.5.3 Covenant compliance

The Company's borrowing facilities contain customary restrictions and covenants, being information covenants, covenants on conduct (*i.e.* no change of nature of business of the Group) or disposal of the business of the Company or any Group company, covenants on related party transactions which

are not made on arms-length terms, restrictions on dividend payments, covenant to keep the VPS Shares registered with the VPS, financial indebtedness restrictions and restrictions on creation of security interests over the Company' assets. There can be no assurance that the Group will be able to comply with all such restrictions and financial covenants or that the Company's lenders will extend waivers or amend terms to avoid any actual or anticipated breaches of such restrictions or financial covenants. This could lead to acceleration of loans, including acceleration based on cross-default provisions in the borrowing facilities, which may in turn cause the Company to become insolvent and/or to file for bankruptcy.

For further information regarding such covenants, please refer to Section 10.10.1 "The Bonds" and Section 10.10.2 "Convertible Loan".

2.6 Legal risks

2.6.1 Funcom are subject to laws and regulations in several jurisdictions

Funcom is a public company with VPS Shares traded on Oslo Børs and a business which is operated globally. Thus, the Company is subject to laws and regulations in a number of jurisdictions. Failure to comply could lead to penalties and other sanctions.

2.6.2 Disputes

The Company may from time to time be involved in dispute, including disputes regarding its intellectual property rights, with all ensuring risks and costs, which could have a material adverse effect on Funcom's business, financial condition and results of operations.

2.6.3 Dutch law may limit the shareholders' ability to bring an action against the Company

The rights of holders of Shares are governed by Dutch law and by the Articles of Association. These rights may differ from the rights of shareholders in other jurisdictions. In addition, it may be difficult to prevail in a claim against the Company under, or to enforce liabilities predicated upon, securities laws in jurisdictions other than the Netherlands.

2.7 Risks relating to the Shares

2.7.1 The market value of the Shares may fluctuate

The trading price for the Shares may fluctuate significantly and may not always reflect the underlying asset value of the Company. A number of factors outside Funcom's control may impact its performance and the price of the Shares, including, but not limited to, quarterly variations in operating results, adverse business developments, changes in market sentiment regarding the VPS Shares, the operating and share price performance of other companies in the industry and markets in which the Group operates, changes in financial estimates and investment recommendations or ratings. Changes in market sentiment may be due to speculation about Funcom's business in the media or investment community, changes to Funcom's profit estimates, the publication of research reports by analysts and changes in general market conditions. If any of these factors actually occurs, they may have a material adverse effect on the pricing of the Shares.

The market price of the Shares could decline due to sales of a large number of the Shares in the market or the perception that such sales could occur, including that the Manager may waive the lock-up undertaking of KJGI and KGJ Capital AS (as further described in section 5.14 "Transferability of the New VPS Shares and the Conversion VPS Shares"). Such sales could also make it more difficult for the Company to offer equity securities in the future at a time and at a price that are deemed appropriate.

In recent years, the stock market has experienced extreme price and volume fluctuations. This volatility has had a significant impact on the market price of securities issued by many companies, including companies in the same industry as the Company. Those changes may occur without regard to the operating performance of these companies. The price of the Shares may therefore fluctuate based upon factors that have little or nothing to do with the Company, and these fluctuations may materially affect the price of the Shares.

Specifically, the Share has been subject to higher volatility than other listed shares and shares in other companies who operate within the same market as Funcom. Historically, this has been due to the revenues of Funcom being very dependent on upcoming game titles. Funcom believes that their new strategy (see Section 7.3 "The new Funcom strategy" for further information) will contribute to reduce the volatility in the Funcom Share, but each investor should be aware of the historical volatility of the Funcom Shares and no assurance can be made that such new strategy will in fact reduce the volatility of the Share.

The Company will not undertake any price stabilizing activities in relation to the Private Placement or the Subsequent Offering.

2.7.2 Lack of liquidity in the Shares

The majority of the Company's Shares are currently listed on Oslo Børs (8,075 Shares are not listed because the holders of those Shares never took the appropriate actions to have those Shares listed). The current listing does not imply that there will always be a liquid market for the Shares. An investment in the Shares may thus be difficult to realize. Investors should be aware that the value of the Shares may be volatile and may go down as well as up. In the case of low liquidity of the Shares, or limited liquidity among the Company's shareholders, the share price can be negatively affected and may not reflect the underlying asset value of the Company. Investors may, on disposing of the Shares, realize less than their original investment or lose their entire investment.

2.7.3 Funcom's ability to pay dividends is dependent on the availability of distributable reserves and the consent of the Bondholders

Dutch law provides that any declaration of dividends must be adopted by the General Meeting. Dividends may only be declared to the extent that Funcom has distributable funds and Funcom's Supervisory Board finds such a declaration to be prudent in consideration of the size, nature, scope and risks associated with Funcom's operations and the need to strengthen its liquidity and financial position.

The Company's General Meeting may not declare higher dividends than the Supervisory Board has proposed or approved. If, for any reason, the General Meeting does not declare dividends in accordance with the above, a shareholder will, as a general rule, have no claim in respect of such

non-payment, and Funcom will, as a general rule, have no obligation to pay any dividend in respect of the relevant period.

The Bond Agreement implies that dividend distributions may only be made with the consent of the Bondholders or by the trustee on behalf of the Bondholders. Further, dividend distributions are also subject to consent by KGJI (in its capacity as creditor under the Convertible Loan). In addition, any dividend distribution is subject to the requirements described in section 11.12 "Distribution of dividends".

2.7.4 Future share issues may have a material adverse effect on the market price of the Shares

Funcom currently has no concrete plans for an offering of additional VPS Shares other than the Subsequent Offering. However, it is possible that Funcom may decide to offer additional Shares or securities in the future in order to strengthen its capital base or for other reasons. Any additional offering of Shares may be made at a significant discount to the prevailing market price and could have a material adverse effect on the market price of the outstanding Shares.

2.7.5 Risk of dilution

Unless otherwise resolved by the General Meeting, shareholders in Dutch public limited liability companies, such as Funcom, have pre-emptive rights proportionate to the aggregate number of Shares they hold with respect to any new Shares issued. Due to regulatory requirements under foreign securities laws or other factors (including that the shareholder's pre-emptive rights may be set aside), foreign investors may be unable to participate in a new issuance of Shares or other securities. Any investor that is unable or unwilling to participate in any future share issues will be diluted.

In addition, the Company has issued convertible Bonds and has also entered into an agreement regarding a Convertible Loan. Conversion of the Bonds or outstanding debt in the Convertible Loan to VPS Shares will have a dilutive effect to shareholders who do not hold Bonds or is a creditor in the Convertible Loan.

2.7.6 Norwegian depositary receipts

Funcom has entered into the Registrar Agreement, attached as Appendix 2 to this Prospectus, to facilitate registration of the Company Shares in connection with the listing of the Company Shares at Oslo Børs. In accordance with the Registrar Agreement the VPS Registrar is registered as the legal owner of the Company Shares. Under the Registrar Agreement, the VPS Registrar registers the beneficial interests in the VPS Shares in book-entry form in the VPS. Accordingly, it is not the Company Shares issued in accordance with Dutch law that are registered in the VPS and may be traded on Oslo Børs, but the beneficial interests in the Company Shares (*i.e.* the VPS Shares).

In accordance with market practice in Norway and system requirements of the VPS, the beneficial interests in the Company Shares will be registered in the VPS under the category of a "share". Although each "share" registered with the VPS will represent evidence of beneficial ownership of one Company Share, such beneficial ownership will not necessarily be recognized by a Dutch court. As such, investors may have no direct rights against Funcom and may be required to obtain the cooperation of the VPS Registrar in order to assert claims against Funcom, and to look solely to the VPS Registrar for the payment of any dividends, for exercise of voting rights attaching to the

underlying Company Shares and for all other rights arising in respect of the underlying Company Shares. Exercising such shareholder rights through the VPS Registrar is subject to certain terms and conditions, as further described in Section 12.4 "The VPS and transfer of VPS Shares – Beneficial interests in the Company Shares" of this Prospectus. Funcom cannot guarantee that the VPS Registrar will be able to execute its obligations under the Registrar Agreement, including that the beneficial owners of the Company Shares will receive the notice of a general meeting in time to instruct the VPS Registrar to either effect a re-registration of their VPS Shares or otherwise vote for their Company Shares in the manner desired by such beneficial owners. Any such failure may *inter alia*, limit the access for, delay or prevent, the beneficial shareholders being able to exercise the rights attaching to the underlying Company Shares.

The VPS Registrar may terminate the Registrar Agreement by not giving less than three months' prior written notice. Further, the VPS Registrar may terminate the Registrar Agreement if Funcom does not perform its payment obligations to the VPS Registrar (and such non-payment has not been remedied by Funcom within ten business days following receipt of notice regarding this from the VPS Registrar) or commit any other material breach of the Registrar Agreement. In the event the Registrar Agreement is terminated, Funcom will use its reasonable best efforts to enter into a replacement agreement for purposes of permitting the uninterrupted registration of the Company Shares in the VPS and the listing of the VPS Shares at Oslo Børs. There can be no assurance, however, that it would be possible to enter into such new agreements on substantially the same terms or at all. A termination of the Registrar Agreement could therefore have a material and adverse effect on Funcom and its shareholders.

The Registrar Agreement limits the VPS Registrar's liability for any loss suffered by Funcom. The VPS Registrar disclaims any liability for any loss attributable to circumstances beyond the VPS Registrar's control, including, but not limited to, errors committed by others. The VPS Registrar is liable for direct losses incurred as a result of events within the VPS. Thus, Funcom may not be able to recover its entire loss if the VPS Registrar does not perform its obligations under the VPS Registrar Agreement.

2.7.7 Certain transfer and selling restrictions may limit the possibility of the shareholders to sell or otherwise transfer their Shares

The VPS Shares have been admitted to trading in Norway. This Prospectus has been approved by the AFM and passported into Norway as described above in the preliminary text of this Prospectus under "Important Information". Funcom has not registered the Shares under the U.S. Securities Act or securities laws of other jurisdictions, including Canada, Australia and Japan, and it does not expect to do so in the future. The Shares may not be offered or sold in the United States, Canada, Australia, Japan or in any other jurisdiction in which the registration or qualification of the Shares is required but has not taken place, unless an exemption from the applicable registration or qualification requirement is available or the offer or sale of the Shares occurs in connection with a transaction that is not subject to such provisions. In addition, there can be no assurances that shareholders residing or domiciled in the United States or other jurisdictions will be able to participate in future capital increases or subscription rights.

2.8 Risks Relating to the Subsequent Offering

2.8.1 Dilution risk due to Subsequent Offering, lapse of Subscription Rights and restrictions on sale and transfer

Subscription Rights that are not exercised by the end of the Subscription Period will have no value and will automatically lapse without compensation to the holder. The shareholders will be diluted as part of the Private Placement and the Debt Conversion (even if they subscribe for VPS Offer Shares) and to the extent that an Eligible Shareholder does not exercise its Subscription Rights prior to the expiry of the Subscription Period, whether by choice or due to a failure to comply with procedures set forth in Section 6 "The Subsequent Offering", or to the extent that an Eligible Shareholder is not permitted to subscribe for VPS Offer Shares as further described in Section 14 "Selling and Transfer restrictions", such Eligible Shareholder's proportionate ownership and voting interests in the Company after the completion of the Subsequent Offering will be further diluted.

2.8.2 Other risks related to the Subscription Rights

An active trading market in the Subscription Rights may not develop on Oslo Børs. In addition, because the trading price of the Subscription Rights depends on the trading price of the VPS Shares, the price of the Subscription Rights may be volatile and subject to the same risks as described for the VPS Shares elsewhere in this Prospectus. The existing volatility of the VPS Shares may also have an effect on the volatility of the Subscription Rights.

2.8.3 Volatility of the market price of Subscription Rights

Certain Existing Shareholders may be unable to take up and exercise their Subscription Rights as a matter of applicable law. The Subscription Rights of such Existing Shareholders, with the exception of Subscription Rights held through financial intermediaries, may be sold on their behalf in the market by the Company, as further described in Section 6.10 "Subscription Rights", but no assurance can be given as to whether such sales may actually take place or as to the price that may be achieved. The sale of Subscription Rights by or on behalf of holders of such rights and the sale of Subscription Rights by other shareholders could cause significant downward pressure on, and may result in a substantial reduction in, the price of the Subscription Rights and the VPS Shares.

2.9 Notice

Note that the list of risk factors above is not exhaustive and only represents a summary of material risk factors related to the Company, the Shares, the Private Placement, the Debt Conversion and the Subsequent Offering. Other risk factors not mentioned in this document may also adversely affect the Company's business and the value of the Shares. Potential investors are urged to independently evaluate the risks involved in investing in the Company and to consult with their own advisors, in addition to acquaint themselves with the risk factors, other information in this Prospectus and other relevant information. In particular, the Company's performance may be affected by changes in legal, regulatory and tax requirements in any of the jurisdictions in which the Company operates or intends to operate as well as overall global financial conditions.

5 THE PRIVATE PLACEMENT AND THE DEBT CONVERSION

5.1 Background and use of proceeds

The Company needed to raise additional capital to fund its ongoing operations, and develop and commercialize new games that will be released in 2016 and 2017. Further, the Private Placement will allow the Company to carry out its planned restructuring activities for long term savings and efficiency. The further development and commercialization of the Company's product portfolio is a key factor for securing the Company's success. To meet this objective, the Company decided to raise additional capital through the Private Placement.

The net proceeds of approximately NOK 49,030,000 from the Private Placement will be used for purposes listed above. More specifically, the net proceeds will be used for (in prioritized order):

1. USD 762,301 will be used for repayment of a short-term loan to KGJI and repayment of interest owed under the Convertible Loan and the Bonds; and
2. NOK 42,834,780¹¹ will be used for working capital and general corporate purposes, including development of *Conan Exiles* and two other titles to be developed this year and related marketing expenses.

In addition to raising new capital through the Private Placement, the Company has entered into an agreement with KGJI for the restructuring of the Convertible Loan and the Bonds. Pursuant to such debt restructuring, KGJI has converted USD 7.7 million of the principal amount owed by the Company under the Convertible Loan into 42,777,728 new Shares (the "**Conversion VPS Shares**") at a conversion price of USD 0.18 per Conversion VPS Share.

5.2 The Private Placement

On 26 May 2016, the Company publicly announced that it had raised a subscription of approximately NOK 52.8 million in gross proceeds through a private placement of 95,970,000 New VPS Shares, each with a par value of EUR 0.04, at a subscription price of NOK 0.55 per share (the "**Private Placement Subscription Price**").

The Private Placement was directed towards certain Norwegian and foreign institutional and professional investors, which subscribed New VPS Shares for NOK 52,783,500 and were allotted New VPS Shares for an equivalent amount.

The Supervisory Board resolved to increase the share capital related to the New VPS Shares on 25 May 2016 in accordance with an authorisation to increase the share capital granted by the general meeting on 25 February 2016.

5.3 The Debt Conversion

On 26 May 2016, the Company publicly announced that it has entered into an agreement with KGJI for the restructuring of the Convertible Loan and the Bonds implying the issuance of 42,777,728 Conversion VPS Shares, each with a par value of EUR 0.04, at a conversion price of USD 0.18 per Conversion VPS Share.

¹¹ Based on an exchange rate between NOK/USD of NOK 8.13 per USD 1.

Completion of the Debt Conversion was conditional upon the completion of the Private Placement.

5.4 Resolutions regarding the Private Placement

On 25 February 2016, the general meeting of Funcom granted an authorisation to issue up to a maximum of 70,000,000 new Company Shares in Funcom, specifically including the authority to issue rights to acquire shares (*rechten tot het nemen van aandelen*) in the capital of Funcom, by voting unanimously in favour of the following proposal:

Proposal to designate (aanwijzen), pursuant to Section 4.9 and 4.1 of Funcom N.V.'s articles of association, the Board of Supervisory Directors as body (orgaan) of Funcom N.V. authorized to issue up to a maximum of 70,000,000 (seventy million) shares (aandelen) in the capital of Funcom N.V., specifically including the authority to issue rights to acquire shares (rechten tot het nemen van aandelen) in the capital of Funcom N.V., and to determine the terms and conditions of each and any such issuance(s), which proposed designation of the Board of Supervisory Directors shall be valid from the date of the Meeting until the first ordinary general meeting of shareholders of Funcom N.V. to be held in the year 2017.

On 25 May 2016, the Supervisory Board passed a resolution to issue 95,970,000 New VPS Shares in connection with the Private Placement.

5.5 Resolutions regarding the Debt Conversion

On 25 February 2016, the general meeting of Funcom granted an authorisation to issue up to a maximum of 50 million new Company Shares in Funcom, specifically including the authority to issue rights to acquire shares (*rechten tot het nemen van aandelen*) in the capital of Funcom, by voting unanimously in favour of the following proposal:

Proposal to designate (aanwijzen), [...], pursuant to Section 4.9 and 4.1 of Funcom N.V.'s articles of association, the Board of Supervisory Directors as body (orgaan) of Funcom N.V. authorized to issue up to a maximum of 50,000,000 (fifty million) shares (aandelen) in the capital of Funcom N.V., specifically including the authority to issue rights to acquire shares (rechten tot het nemen van aandelen) in the capital of Funcom N.V., and to determine the terms and conditions of each and any such issuance(s), which proposed designation of the Board of Supervisory Directors shall be valid from the date of the Meeting until the first ordinary general meeting of shareholders of Funcom N.V. to be held in the year 2017.

On 13 April 2016, the Supervisory Board passed a resolution to issue rights to acquire shares (*rechten tot het nemen van aandelen*) to KGJI. These rights were used to acquire the 42,777,778 Conversion VPS Shares issued in the Debt Conversion.

5.6 The New VPS Shares and the Conversion VPS Shares

The new Company Shares issued in relation to the Private Placement and the Debt Conversion were issued as ordinary shares in accordance with Dutch law on 31 May 2016. In order to facilitate registration with the VPS, the new Company Shares are registered in the name of the VPS Registrar in the Company's shareholders' register in the Netherlands. Following the receipt of the underlying Dutch notarial deed, the VPS Registrar issued the New VPS Shares to the subscribers in the Private

Placement and the Conversion VPS Shares to KGJI on 2 June 2016, at a separate ISIN. The New VPS Shares and the Conversion VPS Shares will be converted to the ISIN of the Company's other VPS Shares as soon as practically possible after the date of this Prospectus.

Both the new Company Shares, the New VPS Shares and the Conversion VPS Shares will rank pari passu in all respects with the existing Shares. The Company Shares will carry full shareholder rights in the Company from the time of issuance. The new Company Shares issued in connection with the Private Placement and the Debt Conversion and the New VPS Shares and the Conversion VPS Shares are eligible for any dividends that the Company may declare after said date. For a description of rights attached to the Shares, see Section 11 "Share capital, shareholder matters and Dutch corporate law".

5.7 Share capital following completion of the Private Placement and the Debt Conversion

The Company's share capital following the completion of the Private Placement and the Debt Conversion is EUR 9,238,236.48 divided into 230,955,912 Shares, each with a par value of EUR 0.04.

5.8 Dilution

The dilutive effect following the issuance of 95,970,000 New VPS Shares and 42,777,778 Conversion VPS Shares represents an immediate dilution of approximately 62.5% for Existing Shareholders who did not participate in the Private Placement or the Debt Conversion and who does not intend to participate in the Subsequent Offering¹².

The dilutive effect following the issuance of 95,970,000 New VPS Shares and 42,777,778 Conversion VPS Shares represents an immediate dilution of approximately 60% for Existing Shareholders who did not participate in the Private Placement or the Debt Conversion and who does intend to participate pro rata to their current shareholding in the Subsequent Offering¹³.

5.9 The Private Placement Subscription Price and the conversion price in the Debt Conversion

The Private Placement Subscription Price was determined through a book building process following the exploration of the various funding alternatives available to the Company. The following factors were also taken into account; the Company's historical and expected earnings, the limited range of funding alternatives available to the Company, future market prospects, and a comparison of these factors with the market valuation of comparable companies, the expected liquidity of the VPS Shares as well as a wider assessment of the stock market in general.

The Private Placement Subscription Price represented a 78% discount compared to the closing price for the Company's VPS Shares on Oslo Børs on 25 May 2016.

¹² The dilutive effect for Existing Shareholders who did not participate in the Private Placement and who do not intend to participate in the Subsequent Offering is based on the maximum amount of VPS Offer Shares being subscribed in the Subsequent Offering.

¹³ The dilutive effect for Existing Shareholders who did not participate in the Private Placement and who do intend to participate pro rata to their current shareholding in the Subsequent Offering is based on the maximum amount of VPS Offer Shares being subscribed in the Subsequent Offering.

The Private Placement Subscription Price was announced through Oslo Børs' information system on 26 May 2016.

The Private Placement Subscription Price was determined by the Supervisory Board, in its absolute discretion and based on advice from the Manager.

The conversion price of USD 0.18 per Conversion VPS Share in the Debt Conversion had been agreed upon in the Convertible Loan agreement.

5.10 Allocation of the New VPS Shares

The Supervisory Board allocated the New VPS Shares towards certain Norwegian and foreign institutional and professional investors, in its sole discretion. All applicants were allocated the amount of New VPS Shares applied for by them at the Private Placement Subscription Price.

The Supervisory Board decided to set aside the Existing Shareholders pre-emptive right to subscribe for new Shares in the Company. The Supervisory Board viewed the proposal in line with market practice, advantageous for the transaction, an expeditious placement, participation of external investors, and reduced the risk of trading based on assumptions regarding the share price development. The Supervisory Board also took into consideration the strained liquidity of the Company and the limited range of funding alternatives available to the Company.

5.11 Share lending agreement

Prior to announcing the Private Placement, the Manager, the Company, KGJI and KGJ Capital AS entered into a share lending agreement whereby 24,500,000 VPS Shares were lent from KGJI and KGJ Capital AS to the Manager in order to arrange for delivery of immediately tradable VPS Shares for a certain part of the subscriptions made in the Private Placement (being a total of 24,500,000 New VPS Shares divided between the subscribers). The Manager was not able to enter into share lending agreements for the whole amount of New VPS Shares, and therefore the share lending agreement only relates to a certain part of the New VPS Shares.

As part of the share lending agreement, the Company undertook to issue New VPS Shares to the Manager after completion of the Private Placement. This undertaking has been fulfilled and on 2 June 2016, an amount of VPS Shares equal to the borrowed VPS Shares was returned by the Manager to KGJ Capital AS on a separate ISIN. The re-delivered VPS Shares will be converted to the ordinary ISIN of the VPS Shares as soon as possible following the approval of this Prospectus.

KGJI does not receive any consideration for lending out its VPS Shares pursuant to the share lending agreement.

5.12 Participation of major Existing Shareholders and members of the Supervisory Board, the Management Board and the Executive Management

No major Existing Shareholders (*i.e.* Existing Shareholders holding more than 3% of the total outstanding VPS Shares prior to the completion of the Private Placement) nor members of the Company's Supervisory Board, Management Board and Executive Management participated in the Private Placement. However, KGJI subscribed for all 42,777,778 Conversion VPS Shares issued in the Debt Conversion.

5.13 Listing of the New VPS Shares and the Conversion VPS Shares

The AFM approved this Prospectus on 10 June 2016. The New VPS Shares and the Conversion VPS Shares are expected to be listed on Oslo Børs at 14 June 2016, where 92,200,059 VPS Shares are already listed (8,075 Company Shares have not been registered with the VPS and listed because the holders of those Shares never took the appropriate actions in order to have those Shares registered with the VPS and listed).

5.14 Transferability of the New VPS Shares and the Conversion VPS Shares

A subscriber for the New VPS Shares or the Conversion VPS Shares will not under any circumstances be entitled to sell or transfer the New VPS Shares issued in the Private Placement or the Conversion VPS Shares until the New VPS Shares or the Conversion VPS Shares (as applicable) have been credited on the subscribers' VPS account. In addition, KGJI has, subject to certain customary terms and conditions, accepted a lock-up undertaking on its Conversion VPS Shares until the earlier of; (i) launch of *Conan Exiles* plus a period of 30 days; or (ii) 31 December 2016 (save if any event described below occurs).

The lock-up undertaking accepted by KGJI was made in favor of the Manager on 26 May 2016. The lock-up implies that KGJI may not, without prior written consent¹⁴ from the Manager, directly or indirectly:

- (i) offer, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of any Conversion VPS Shares, options or any securities convertible into or exercisable or exchangeable for Conversion VPS Shares; or
- (ii) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Conversion VPS Shares

whether any such transaction described in (i) or (ii) above is to be settled by delivery of Conversion VPS Shares, cash or other securities.

In addition to the termination grounds referred to above, the lock-up undertaking shall cease if:

- (i) a voluntary offer is launched for the shares in the Company (or similar transaction);
- (ii) the Company enters into a merger or business combination agreement in which the ownership of the existing shareholders of the Company are diluted to less than 80% of the merged company;
- (iii) the Company issues new shares to a strategic investor in which such investor acquires through such share subscription more than 20% of the shares in the Company (post equity issuance).

5.15 VPS registration and delivery of the New VPS Shares

The New VPS Shares and the Conversion VPS Shares will, together with the existing VPS Shares, be registered as Depositary Receipts over the underlying Company Shares and may be identified by ISIN number NL 0000062461. The VPS Shares are issued by the Company's VPS Registrar, DNB Bank ASA, Verdipapirservice, Dronning Eufemias gate 30, P.O. Box 1600 Sentrum, 0021 Oslo, Norway.

¹⁴ Such consent may be given at any time for the term of the lock-up undertaking and at the Manager's sole discretion.

The New VPS Shares and the Conversion VPS Shares will be tradable on Oslo Børs, and issued to the subscribers' respective VPS accounts following approval of this Prospectus by the AFM.

Please note that, pursuant to the Registrar Agreement, the VPS Registrar will be registered as the holder of every new Company Share in the Company's shareholders' register in the Netherlands. The VPS Registrar shall register the beneficial interests in the new Company Shares in book-entry form with the VPS. Therefore, it is not the shares in registered form issued in accordance with the Dutch Civil Code, but the beneficial interests in such shares in book-entry form under the category of a "share" that are registered with the VPS and traded on Oslo Børs. The beneficial interests in the new Company Shares, in the form of New VPS Shares, are registered in the VPS as of the date of this Prospectus. Each such VPS Share registered with the VPS represents beneficial ownership of one Company Share.

5.16 Selling and transfer restrictions

For a description of selling and transfer restrictions applicable to the Private Placement, please refer to Section 14 "Selling and Transfer restrictions".

5.17 Proceeds and expenses related to the Private Placement

The gross proceeds from the Private Placement and the Debt Conversion to Funcom will be approximately NOK 52.8 million and USD 7.7 million, respectively. The net proceeds from the Private Placement and the Debt Conversion, following a deduction of transaction costs, will be up to approximately NOK 49,030,000 million and USD 7.7¹⁵ million, respectively.

5.18 Governing law and jurisdiction

This Prospectus and the terms and conditions of the Private Placement and the Debt Conversion shall be governed by and construed in accordance with Norwegian law. The issuance of the new Company Shares in relation to the Private Placement shall be governed by and construed in accordance with Dutch law. The issuance of the New VPS Shares shall be governed by and construed in accordance with Norwegian law.

Advokatfirmaet CLP DA is acting as the Company's legal adviser on Norwegian law matters in relation to the Private Placement and the Debt Conversion. Weidema van Tol (Netherlands) B.V. is acting as the Company's legal adviser on Dutch law matters in relation to the Private Placement and the Debt Conversion.

No expenses or taxes will be charged by the Company to the subscribers in the Subsequent Offering. No action has been taken to permit a public offering of the VPS Offer Shares in jurisdiction outside of Norway.

Any announcements regarding the Subsequent Offering will be made as stock exchange notices published at www.newsweb.no.

6.2 Background and use of proceeds

Following the terms agreed with the investors in the Private Placement, the Supervisory Board has proposed to complete a Subsequent Offering of 15 million VPS Offer Shares. The Supervisory Board has resolved to conduct the Subsequent Offering directed at the Eligible Shareholders. The net proceeds of up to NOK 8.25 million from the Subsequent Offering will be used for general corporate purposes and working capital.

If the abovementioned proposal is accepted by the annual General Meeting, the Supervisory Board will utilize this authorisation to issue the VPS Offer Shares.

The Company will issue new Company Shares as ordinary shares in accordance with Dutch law in relation to the Subsequent Offering on or about 19 August 2016. In order to facilitate registration with the VPS, the new Company Shares issued in the Subsequent Offering will be registered in the name of the VPS Registrar in the Company's shareholders' register in the Netherlands. Following the receipt of the underlying Dutch notarial deed, the VPS Registrar will issue the VPS Offer Shares to the subscribers in the Subsequent Offering as soon as practically possible.

Both the new Company Shares to be issued in relation with the Subsequent Offering and the VPS Offer Shares will rank pari passu in all respects with the existing Shares. The new Company Shares will carry full shareholder rights in the Company from the time of issuance. The new Company Shares to be issued in connection with the Subsequent Offering and the VPS Offer Shares will be eligible for any dividends that the Company may declare after said date. The Subsequent Offering Subscription Price represents a discount of approximately 65% to the closing price of NOK 1.57 per VPS Share as quoted on Oslo Børs on 6 June 2016, and a discount of approximately 63.5% to the theoretical opening price of the VPS Shares without Subscription Rights of NOK 1.51 (TERP), calculated on the basis of the closing price per VPS Share on 6 June 2016.

No expenses or taxes are charged to the subscribers in the Subsequent Offering by the Company.

6.8 Subscription Period

The subscription period in the Subsequent Offering (the "**Subscription Period**") will commence on 5 July 2016 and end on 8 August 2016 at 16.30 hours (CET).

6.9 Record Date for Existing Shareholders

Only shareholders who are registered in the Company's shareholders' register in the VPS as of 4 July 2016 (the "**Record Date**") may be considered as Eligible Shareholders.

Provided that the delivery of traded VPS Shares was made with ordinary T+2 settlement in the VPS, VPS Shares that were acquired on or before 30 June 2016 will give the right to be considered as an Eligible Shareholder, whereas VPS Shares that were acquired from and including 1 July 2016 will not give the right to be considered as an Eligible Shareholder.

6.10 Subscription Rights

Eligible Shareholders will be granted Subscription Rights giving a preferential right to subscribe for and be allocated VPS Offer Shares. Each Eligible Shareholder will be granted 0.0649 Subscription Right for every existing VPS Share registered as held by such Eligible Shareholder on the Cut-Off Date (as appearing in the VPS on the Record Date). One (1) Subscription Right will, subject to applicable securities laws, give the right to subscribe for and be allocated one (1) VPS Offer Share.

The number of Subscription Rights issued to each Eligible Shareholder will be rounded down to the nearest whole number of Subscription Rights without compensation to the holder. Each Subscription Right grants the owner the right to subscribe for and be allocated 1 (one) VPS Offer Share in the Subsequent Offering.

The Subscription Rights will be credited to and registered on each Eligible Shareholder's VPS account on 5 July 2016 under an International Securities Identification Number (ISIN) NL 0011896980, but will not be tradable before the trading period starts. The Subscription Rights are distributed free of charge to Eligible Shareholders.

Eligible Shareholders who have not registered their Company Shares with the VPS, must establish a VPS account and contact the Manager in order to facilitate granting of Subscription Rights.

The Subscription Rights may be sold before the expiry of the Trading Period on 4 August 2016 or used to subscribe for VPS Offer Shares before the expiry of the Subscription Period on 8 August 2016 at 16:30 hours (CET). Acquired Subscription Rights will give the same right to subscribe for and be allocated VPS Offer Shares as Subscription Rights held by Eligible Shareholders on the basis of their shareholdings on the Record Date.

The Subscription Rights, including acquired Subscription Rights, must be used to subscribe for VPS Offer Shares before the end of the Subscription Period (*i.e.*, 8 August 2016 at 16:30 hours (CET)) or sold before the end of the Trading Period (*i.e.*, 4 August at 16:30 hours (CET)). Subscription Rights that are not sold before 16:30 hours (CET) on 4 August 2016 or exercised before 16:30 hours (CET) on 8 August 2016 will have no value and will lapse without compensation to the holder. Holders of Subscription Rights (whether granted or acquired) should note that subscriptions for VPS Offer Shares must be made in accordance with the procedures set out in this Prospectus and that the acquisition of Subscription Rights does not in itself constitute a subscription of VPS Offer Shares.

6.11 Trading in Subscription Rights

Subscription Rights of Eligible Shareholders resident in jurisdictions where the Prospectus may not be distributed and/or with legislation that, according to the Company's assessment, prohibits or otherwise restricts subscription for VPS Offer Shares (the "**Ineligible Shareholders**") will initially be credited to such Ineligible Shareholders' VPS accounts. Such credit specifically does not constitute an offer to Ineligible Shareholders to subscribe for VPS Offer Shares. To the extent any Shareholders are Ineligible Shareholders, their Subscription Rights may be sold by the Company and/or the Manager and credited to the accounts of the relevant Ineligible Shareholders, net of cost and expenses, if they have a value exceeding the cost involved in selling the Subscription Rights and there is a market for acquiring such Subscription Rights. There can be no assurances that the Company and/or the Manager will sell any Subscription Rights or, in the event a sale is carried out, be able to sell the Subscription Rights with a profit.

The Subscription Rights will be tradable and listed on Oslo Børs with assumed ticker code "FUNCOM T"¹⁶ from 5 July 2016 until 16:30 (CET) on 4 August 2016.

The Subscription Rights will hence only be tradable during part of the Subscription Period.

Persons intending to trade in Subscription Rights should be aware that the exercise of Subscription Rights by holders who are located in jurisdictions outside Norway may be restricted or prohibited by applicable securities laws. Please refer to Section 14 "Selling and Transfer restrictions" for a description of such restrictions and prohibitions.

6.12 Subscription procedure

Subscriptions for VPS Offer Shares must be made by submitting a correctly completed subscription form (such form is enclosed to this Prospectus as Appendix 1, the "**Subscription Form**") to the Manager during the Subscription Period. The Subscription Forms may be submitted to:

ABG Sundal Collier ASA
Postboks 1444 Vika
N-0115 Oslo
Norway
E-mail: subscription@abgsc.no
Facsimile: +47 22 01 60 62

Correctly completed Subscription Forms must be received by the Manager no later than 8 August 2016 16.30 hours (CET).

Neither the Company nor the Manager may be held responsible for postal delays, internet lines, unavailable facsimile lines, servers, or other logistical or technical problems that may result in subscriptions not being received in time or at all by the Manager. Subscription Forms received after the end of the Subscription Period and/or incomplete or incorrect Subscription Forms and any subscription that may be unlawful may be disregarded at the sole discretion of the Company without notice to the subscriber.

¹⁶ If the ticker code of the Subscription Rights will not be FUNCOM T, the correct ticker code for the Subscription Rights will be disclosed prior to start of the Subscription Period through www.newsweb.no.

Norwegian citizens who hold their VPS Shares through VPS may also subscribe for VPS Offer Shares on the internet, from the start of the Subscription Period, through the VPS online subscription system. All online subscribers must verify that they are Norwegian citizens by entering their national identity number (Nw. "*personnummer*"). Neither the Manager nor the Company assumes any responsibility for failure to subscribe or inability to subscribe for VPS Offer Shares due to technical or internet problems.

Subscriptions are binding and irrevocable, and cannot be withdrawn, cancelled or modified by the subscriber after having been received by the Manager. The subscriber is responsible for the correctness of the information filled into the Subscription Form. By signing and submitting a Subscription Form, the subscribers confirm and warrant that they have read this Prospectus and are eligible to subscribe for VPS Offer Shares under the terms set forth herein.

There is no minimum subscription amount for which subscriptions in the Subsequent Offering must be made. Oversubscription and subscription without Subscription Rights will be permitted.

Multiple subscriptions (*i.e.* subscriptions on more than one Subscription Form) are allowed. Please note, however, that two separate Subscription Forms submitted by the same subscriber with the same number of VPS Offer Shares subscribed for on both Subscription Forms will only be counted once unless otherwise explicitly stated in one of the Subscription Forms.

6.13 Mandatory anti-money laundering procedures

The Subsequent Offering is subject to the Norwegian Money Laundering Act No. 11 of 6 March 2009 and the Norwegian Money Laundering Regulations No. 302 of 13 March 2009 (collectively, the "Anti-Money Laundering Legislation").

Subscribers who are not registered as existing customers of the Manager must verify their identity to the Manager in accordance with the requirements of the Anti-Money Laundering Legislation, unless an exemption is available. Subscribers who have designated an existing Norwegian bank account and an existing VPS account on the Subscription Form are exempted, unless verification of identity is requested by the Manager. Subscribers who have not completed the required verification of identity prior to the expiry of the Subscription Period will not be allocated VPS Offer Shares.

Furthermore, participation in the Subsequent Offering is conditional upon the subscriber holding a VPS account. The VPS account number must be stated in the Subscription Form. VPS accounts can be established with authorized VPS registrars, who can be Norwegian banks, authorized securities brokers in Norway and Norwegian branches of credit institutions established within the EEA. However, non-Norwegian investors may use nominee VPS accounts registered in the name of a nominee. The nominee must be authorized by the NFSA. Establishment of a VPS account requires verification of identification to the VPS registrar in accordance with the Anti-Money Laundering Legislation.

6.14 Financial intermediaries

6.14.1 General

All persons or entities holding VPS Shares or Subscription Rights through financial intermediaries (e.g., brokers, custodians and nominees) should read this Section 6.14 "Financial intermediaries". All questions concerning the timeliness, validity and form of instructions to a financial intermediary in relation to the exercise, sale or purchase of Subscription Rights should be determined by the financial intermediary in accordance with its usual customer relations procedure or as it otherwise notifies each beneficial shareholder.

The Company is not liable for any action or failure to act by a financial intermediary through which VPS Shares are held.

6.14.2 Subscription Rights

If an Existing Shareholder holds VPS Shares registered through a financial intermediary on the Record Date, the financial intermediary will, subject to the terms of the agreement between the Eligible Shareholder and the financial intermediary, customarily give the Eligible Shareholder details of the aggregate number of Subscription Rights to which it will be entitled and the relevant financial intermediary will customarily supply each Eligible Shareholder with this information in accordance with its usual customer relations procedures. Eligible Shareholders holding VPS Shares through a financial intermediary should contact the financial intermediary if they have received no information with respect to the Subsequent Offering

Subject to applicable law, Eligible Shareholders holding VPS Shares through a financial intermediary may instruct the financial intermediary to sell some or all of their Subscription Rights, or to purchase additional Subscription Rights on their behalf. Please refer to Section 14 "Selling and Transfer restrictions" for a description of certain restrictions and prohibitions applicable to the sale and purchase of Subscription Rights in certain jurisdictions outside Norway.

6.14.3 Subscription Period and period for trading in Subscription Rights

The time by which notification of exercise instructions for subscription of VPS Offer Shares must validly be given to a financial intermediary may be earlier than the expiry of the Subscription Period. The same applies for instructions pertaining to trading in Subscription Rights and the last day of trading in such rights (which accordingly will be a deadline earlier than 4 August 2016 at 16:30 hours (CET)). Such deadlines will depend on the financial intermediary. Eligible Shareholders who hold their VPS Shares through a financial intermediary should contact their financial intermediary if they are in any doubt with respect to deadlines.

6.14.4 Subscription

Any Eligible Shareholder who holds its Subscription Rights through a financial intermediary and wishes to exercise its Subscription Rights, should instruct its financial intermediary in accordance with the instructions received from such financial intermediary. The financial intermediary will be responsible for collecting exercise instructions from the Eligible Shareholders and for informing the Manager of their exercise instructions.

A person or entity who has acquired Subscription Rights that are held through a financial intermediary should contact the relevant financial intermediary for instructions on how to exercise the Subscription Rights.

Please refer to Section 14 "Selling and Transfer restrictions" for a description of certain restrictions and prohibitions applicable to the exercise of Subscription Rights in certain jurisdictions outside Norway.

6.14.5 Method of payment

Any Existing Shareholder who holds its Subscription Rights through a financial intermediary should pay the Subsequent Offering Subscription Price for the VPS Offer Shares that are allocated to it in accordance with the instructions received from the financial intermediary. The financial intermediary must pay the Subscription Price in accordance with the instructions in the Prospectus. Payment by the financial intermediary for the VPS Offer Shares must be made to the Manager no later than the Payment Date. Accordingly, financial intermediaries may require payment to be provided to them prior to the Payment Date.

6.15 Allocation of the VPS Offer Shares

Allocation of the VPS Offer Shares will take place on or about 9 August 2016 in accordance with the following criteria:

- (i) Subscription made on the basis of Subscription Rights will be allotted VPS Offer Shares;
- (ii) Over-subscription by subscribers with Subscription Rights on a pro rata basis; and
- (iii) Subscription by subscribers without Subscription Rights on a pro rata basis.

The Company reserves the right to round off, reject or reduce any subscription for VPS Offer Shares. In the event the Company rounds off, rejects or reduces any subscription amount for VPS Offer Shares, any payments made in connection with such subscriptions will be returned without interest or other compensation.

Allocation of fewer VPS Offer Shares than subscribed for by a subscriber will not impact on the subscriber's obligation to pay the number of VPS Offer Shares actually allocated.

The Company will not distinguish subscribers by which securities firm, if any, the subscription has been made through.

The result of the Subsequent Offering is expected to be published on or about 9 August 2016 in the form of a stock exchange notification from the Company through the Oslo Børs information system and at the Company's website (www.funcom.com). Notifications of allocated VPS Offer Shares and the corresponding subscription amount to be paid by each subscriber are expected to be distributed in a letter on or about 9 August 2016. Subscribers having access to investor services through their VPS account will be able to check the number of VPS Offer Shares allocated to them from 12:00 hours (CET) on 9 August 2016. Subscribers who do not have access to investor services through their VPS account manager may contact the Manager from 12:00 hours (CET) on 9 August 2016 to request information about the number of VPS Offer Shares allocated to them.

The VPS Offer Shares may not be traded until they are listed on Oslo Børs, which is expected to be on or about 19 August 2016.

6.16 Payment for the VPS Offer Shares

6.16.1 Payment due date

The payment for VPS Offer Shares allocated to a subscriber falls due on 12 August 2016 (the "**Payment Date**"). Payment must be made in accordance with the requirements set out in ("Subscribers who have a Norwegian bank account" or "Subscribers who do not have a Norwegian bank account") below.

6.16.2 Subscribers who have a Norwegian bank account

Subscribers who have a Norwegian bank account must, and will by signing the Subscription Form, provide the Manager with a one-time irrevocable authorization to debit a specified bank account with a Norwegian bank for the amount payable for the VPS Offer Shares which are allocated to the subscriber. Payment by direct debiting is only available for subscribers who are allocated VPS Offer Shares for an amount below NOK 5,000,000.

The specified bank account is expected to be debited on or after the Payment Date. The Manager is only authorized to debit such account once, but reserves the right to make up to three debit attempts, and the authorization will be valid for up to seven working days after the Payment Date. The subscriber furthermore authorizes the Manager to obtain confirmation from the subscriber's bank that the subscriber has the right to dispose over the specified account and that there are sufficient funds in the account to cover the payment.

If there are insufficient funds in a subscriber's bank account or if it for other reasons is impossible to debit such bank account when a debit attempt is made pursuant to the authorization from the subscriber, the subscriber's obligation to pay for the VPS Offer Shares will be deemed overdue.

Payment by direct debiting is a service that banks in Norway provide in cooperation. In the relationship between the subscriber and the subscriber's bank, the standard terms and conditions for "Payment by Direct Debiting – Securities Trading" will apply, provided, however, that subscribers who are allocated VPS Offer Shares for an amount exceeding NOK 5,000,000 must contact the Manager for further details and instructions, and ensure that payment with cleared funds for the VPS Offer Shares allocated to them is made on or before the Payment Date.

6.16.3 Subscribers who do not have a Norwegian bank account

Overdue and late payments will be charged with interest at the applicable rate from time to time under the Norwegian Act on Interest on Overdue Payment of 17 December 1976 No. 100, which is currently 8.75% per annum. If payment for the allotted VPS Offer Shares is not received when due, the subscribed VPS Offer Shares will not be delivered to the subscriber, and Funcom reserves the

right, at the risk and cost of the subscriber, to cancel the subscription in respect of the Offers Shares for which payment has not been made, or to sell or otherwise dispose of the VPS Offer Shares and hold the subscriber liable for any loss, cost or expense suffered or incurred in connection therewith. The original subscriber remains liable for payment of the entire amount due, including interest, costs, charges and expenses accrued, and the Manager and/or the Company may enforce payment of any such amount outstanding.

The VPS Registrar will register the beneficial interests in the new Company Shares to be issued in connection with the Subsequent Offering in book-entry form with the VPS through the VPS Offer Shares. Therefore, it is not the Company Shares in registered form issued in accordance with the Dutch Civil Code, but the beneficial interests in such Company Shares in book-entry form under the category of a "share" that are registered with the VPS and traded on Oslo Børs. The VPS Offer Shares will be registered in the VPS following completion of the Subsequent Offering. Each VPS Offer Share will represent beneficial ownership of one Company Share to be issued in connection with the Subsequent Offering.

Funcom B.V was converted into a limited liability company (*naamloze vennootschap*) on 16 October 2000. The Company's name was changed accordingly to Funcom N.V. The Company's commercial name is Funcom.

The Company is registered with the Commercial Register of the Chamber of Commerce (*Handelsregister van de Kamer van Koophandel*) under registration number 28073705. The Company's registered office is at Keplerstraat 34, 1171CD Badhoevedorp, the Netherlands and may be reached at telephone number +31 20 30 55 714.

The principal activities of the Company (and the Group) are to develop, market and carry on business in computer games in the broadest sense. This is further elaborated in article 2 of the Company's articles of association, which states that the operational objective of the Company is to develop, market and carry on business in computer games, hereunder massively multiplayer online games, online role playing games and related games on electronic devices of different kinds. The objectives of the Company further include to take and grant licenses and other industrial property interests, assume commitments in the name of any enterprise with which it may be associated within a group of companies, to take financial interests in such enterprises and to take any other action, such as but not limited to the granting of securities or the undertaking of obligations on behalf of third parties, which in the broadest sense of the term, may be related or contribute to the aforesaid objectives.

The key criteria for the overall performance of the Group are (i) cost of development of new products; (ii) cost of maintenance and support of Live Games; (iii) overall reach and sales of products; (iv) lifetime retention and revenues per customers; and (v) lifetime of the Group's products.

The Group also has offices in Oslo, Norway and in Raleigh, North Carolina, the United States. As of the date hereof, the Group has a total of 90 employees. In addition, the Group has also currently hired five consultants.

7.2 Business concept

Funcom is a developer of video games, which specializes in the making of massively multiplayer online games (MMO's). However, Funcom has also developed and published several single-player games. Funcom's games are published on a number of different platforms, which implies a wide potential reach for its games.

Since the incorporation of Funcom, the Company has developed and published over 25 game titles across several genres and gaming platforms. Most notable of these are the online games "*The Secret World*", "*Age of Conan*" and "*Anarchy Online*" and the single player games "*The Longest Journey*"

and "*Dreamfall*". In its early days, Funcom developed console games such as "Pocahontas" and "Casper", and also created numerous ports¹⁷ of existing games to various platforms. One of the key reasons for Funcom's achievements in the MMO segment is the development of the Company's proprietary technology platform "*Dreamworld Technology*". This platform and all its associated tools gives the developers the flexibility and power needed to create some of the most advanced virtual worlds on the market. The Company continues to expand and enhance its proprietary technology simultaneously with all its game production. For further information on the *Dreamworld Technology*, please refer to Section 7.7 "Technology".

7.3 The new Funcom strategy

The Company decided to shift strategy in the course of 2015, focusing on different types of products and production cycles. The Company decided to change its strategy to be able to adapt easier to fast changing market trends, to lower the investment levels required for each game and to be able to produce game titles faster and more agile. This new strategy consists of:

- (i) developing small and innovative games, focused on trying new concepts, experimenting with new technology and platforms and utilizing our intellectual properties, while keeping the investment level low;
- (ii) developing larger games, focused on genres or game types where we can create products of higher production value than the competition, using our own or 3rd party intellectual property¹⁸ and drawing from the innovation and experimentation of the smaller products to lower the overall risk;
- (iii) upgrading the *Dreamworld Technology* to integrate with third parties; and
- (iv) leveraging and growing the internal Intellectual Properties such as *Anarchy Online*, *The Longest Journey* and *The Secret World* for both internal and third-party licensing.

The product development and release plan for this strategy is a minimum of one small game released per year and one larger game to be in development at all times per development studio. Additionally, the Company will keep developing and supporting the existing MMORPGs as they are an important source of revenue and drive the internal intellectual properties. The Company intends to publish their games through a number of various distribution services, but considers Steam to be the most important. The Company considers that it is materially dependent on Steam as this is the biggest online distribution client of computer games with the best reach for games that will be produced under the new Funcom strategy.

The strategy is meant to reduce the overall risk exposure of the Company, control costs through careful budgeting throughout the Group and increase the financial stability by having more revenue sources. The Company has implemented a cost-saving scheme called "Structural cost". Under this scheme, the Company intends to reduce Group costs by liquidating companies that do no longer bring any value to the Group.

Furthermore, the Company will streamline its business by simplifying the company structure under the Structural cost scheme (cf. above), evaluating strategic options including but not restricted to

¹⁷ Ports are games developed for one platform and subsequently made compatible for another platform.

¹⁸ The Company considers itself materially dependent on the intellectual property rights related to Conan the Barbarian licensed from Conan Properties Inc. Please refer to section 7.10 "Licenses and intellectual property" for further information.

partnerships, mergers, acquisitions etc. The Company will continue its constructive dialogue with its major creditor, KGJL, to ensure a favorable debt structure for both parties.

The games developed and published prior to the shift of strategy are part of the new strategy only as a revenue contributor and as part of the legacy of the Company. This implies that the Company expects that the games developed and published prior to the shift of strategy will continue to generate revenue in the future, however with a slow down-going trend, and that the Company may decide to produce new game titles based on its existing intellectual property rights.

Both development studios are scheduled to have fully switched to this strategy by 2Q16.

The first game that was released under this new strategy is "*The Park*", released for PC on 27 October 2015.

The above mentioned statements and objectives are forward looking and are subject to change along with industry trends. The Company strongly encourages all investors, analysts, press and others to investigate and analyze the gaming industry. The industry has drastically changed over the past few years. It is the Company's clear goal to align itself with the market, leverage its technology and know-how and adapt its portfolio of products to address the current as well as future needs.

Funcom plans to achieve this vision through the aforementioned strategy of developing and releasing multiple games per year, with the smaller games being the catalyst for innovation and experimentation and the larger games being the solid bets to drive revenue.

7.6 Legal structure

7.6.1 Overview

The Company is a holding company. The legal structure of the Group is set out below.

7.6.2 Subsidiaries

In 2014 Funcom has taken the decision to reorganize and simplify its group structure, by reducing the number of subsidiaries and by moving the business to Funcom Oslo AS. In consequence, Funcom GmbH in Liquidation and Funcom Sales GmbH in Liquidation was put in voluntary liquidation back in January 2015. Funcom GmbH in Liquidation was finally liquidated and deregistered on 11 May 2016. The liquidation process of a company in Switzerland takes at least 12 months. It is expected that Funcom Sales GmbH will be liquidated and deregistered in the second or third quarter of 2016.

7.7 Technology

7.7.1 The *Dreamworld Technology*

Funcom has since 2000 developed its own proprietary and trademarked technology for development of computer games, called the "*Dreamworld Technology*". The *Dreamworld Technology* is the technological foundation on which Funcom's games are built, including *Age of Conan*, *The Secret World* and *LEGO® Minifigures Online*.

The *Dreamworld Technology* is tailored and optimized for creating world class MMO's. The technology has a highly modular structure in which new and upgraded technology modules can be integrated into the technology base.

The *Dreamworld Technology* provides Funcom with a unique competitive advantage by enabling more flexible, faster and more predictable development and deployment of upcoming games.

As part of the strategy to focus on multiple types of games and have faster development cycles, the *Dreamworld Technology* is now being adapted to work together with leading third-party engines, with Unreal Engine 4 being the first of such engines to be integrated. The integration of third-party engines in the *Dreamworld Technology* will give the Company the possibility to use software and tools developed by third parties when such third-party software and tools are considered to be of a higher quality than those developed and Funcom and when such can be accessed and used at a lower price than the investment costs needed to develop proprietary software and tools of an equal quality. The possibility to integrate third-party software and tools into the *Dreamworld Technology* will provide Funcom with a flexible means for developing games and allow Funcom to retain the competitive edge on all online and multiplayer aspects while leveraging the front-end strengths of third-party engines.

The Company is dependent on the *Dreamworld Technology* to generate revenue as this technology forms the basis of the games developed and published by Funcom, including its Live Games, as described above.

7.8 Game Intellectual Properties and associated products

7.8.1 *The Longest Journey*

Anarchy Online is set in a unique science fiction world tens of thousands of years into the future on the planet *Rubi-Ka*, where the rebellious *Clans* are fighting the corporation *Omni-Tek*. *Anarchy Online* offers a huge and ever expanding game world. Through the years, the world and game systems of *Anarchy Online* have continuously been made bigger and deeper through expansions such as *The Notum Wars*, *Shadowlands*, *Alien Invasion*, *Lost Eden* and *Legacy of the Xan*.

The keys behind the game's longevity are both a strong and tightly knit community and incredibly deep game systems, which allow the players to develop their characters to great extents.

More than 2 million players have engaged in the game, and Funcom has an active email address pool¹⁹ for *Anarchy Online* with more than 500,000 addresses. Usually it increases with activity and decreases when it has been a while since last update to the games or with new games.

The Park

The Park is a first-person single player psychological horror adventure video game, which was released in October 2015. *The Park* utilizes *The Secret World* intellectual property and is set in a location called "Atlantic Island Park".

As a project, *The Park*'s main objective was to prepare the Funcom Oslo team to adapt the new Funcom strategy and to build the skills needed for the larger game to be released in 2016.

More specifically, it was meant as an experimental title to develop Funcom Oslo's team expertise with Unreal Engine 4, its ability to develop and release a game in a very short timeframe (6 months), to test the Single Player Horror market and to test releasing a horror/thriller game around the Halloween timeframe, all while generating a new revenue stream.

The Xbox One and PlayStation 4 release of *The Park* on 3 May 2016 is meant to build internal expertise regarding developing and launching on the new generation of game consoles.

The Park has sold around 40,000 units on the PC platform.

7.8.5 LEGO® *Minifigures Online*

LEGO® *Minifigures Online* is an online MMO for kids of all ages based on the LEGO® *Minifigures Online*. LEGO® *Minifigures Online* was released on PC in October 2014, and was released for the Mac OS, iOS and Android systems throughout 2015. The game features full cross-platform play, allowing

anyone to play together in the same world regardless of which device they are playing on. LEGO® *Minifigures Online* is free to play.

The game is based on the LEGO® Minifigures theme, allowing players to unlock and play as the various characters from the theme, while also incorporating elements from classic LEGO® themes. LEGO® *Minifigures Online* have been developed and published under license from the LEGO® Group. The brand name LEGO®, the LEGO® logo, the "Brick" and the "Knob" configurations and the "Minifigures" are trademarks of the LEGO® Group.

7.8.6 Upcoming games

Conan Exiles

Funcom is working on an open world survival game set in the world of Conan the Barbarian called *Conan Exiles*.

The game is targeted to be released on the PC platform in the "Steam" store in "Early Access" mode on 13 September 2016, with full launch on PC and Consoles at a later stage²². The game will be commercialized using a premium (also called "Pay to play") business model, details of which will be revealed closer to the release of the game.

The game is being developed by the team in Funcom Oslo and will represent an estimated investment of between 4 and 10 Million USD, adjustable based on the reception and sales performance of the game to be measured starting with the Early Access release. The estimated investment refers to Funcom's total investment in *Conan Exiles* for the lifetime of this game. Funcom expects that the financial performance of the Company will be materially dependent on the performance of the larger games, including *Conan Exiles*, developed under the new Funcom strategy. However, as only one game has yet been published under the new Funcom strategy, the actual dependency on such games is uncertain.

7.8.7 Games in early stage development

In addition to *Conan Exiles*, Funcom is in the early stages of planning and development for two small games as described in the Company's strategy. These titles will have a limited budget, *i.e.* a budget of less than one million USD, and timeframe, *i.e.* around 3 – 12 months development time, and will explore different genres and market segments than the larger *Conan Exiles* game described above. The goal of these games are to explore different market segments and genres to a lower cost than the cost of a larger game like *Conan Exiles*.

²² The time spent from Early Access launch until full launch has not yet been finally determined and will depend on the reception of *Conan Exiles*. However, Funcom does not expect that the period between Early Access and full launch of *Conan Exiles* will last for longer than one year.

7.9 Development of the Company's games

The Company follows an iterative development process for its games based on frequent milestone deliveries, with most of the development done in-house and some outsourcing/subcontractor work when necessary. The Company uses outsourcing and subcontractor work for more basic tasks in addition to in-house production, for example related to graphics or music production.

It is the Company's intention to have a solid development team with experienced developers that can interface with outsourcing/subcontractors for periods of time when the development demands are higher, *i.e.* when the Company has a production need which cannot be met with in-house capabilities, to avoid inflating the Company's headcount and personnel costs in an unsustainable way.

7.10 Licenses and intellectual property

The Company is dependent on the intellectual property rights held by it, to develop and publish games. The Company considers itself materially dependent on its proprietary intellectual property rights utilized in its Live Games, including *The Longest Journey*, *Anarchy Online* and *The Secret World*.

The Company holds a number of trademarks related to their games and the branding of the Company, which are registered in all jurisdictions the Company has deemed it appropriate to register trademarks and copyrights.

The table below list the Group's trademark portfolio as of the date of this Prospectus:

Trademark	Countries	Registration no.	Classes	Case status	Earliest priority

In addition, the source codes related to the games of Funcom are proprietary intellectual property rights of Funcom.

The Company does not own any patents.

8 MARKET OVERVIEW

8.1 Global games market

The global games market produces, publishes and distributes interactive content to its users worldwide. Just as the movie- and music industry, the games industry directs its focus towards production, publication and distribution of intellectual property rights. The games market can be divided into segments in many different ways, based on distribution platform, game genre or for instance level of connectivity. In this Prospectus, unless specified, the market segmentation is based on public information provided by the independent research company NewZoo. They divide the market into four different types of platforms that enable players to engage in gaming content: Computer Screen, Personal Screen, Floating Screen, and Entertainment Screen.

The figure below presents the global games market, and estimated market shares per segment for 2015.

Funcom's main focus will be directed towards the Computer Screen and Entertainment Screen markets, while third-party developers will be able to license Funcom's intellectual properties and develop games for the Personal Screen segment. As mentioned in section 7.5 "Vision, goals and strategy", an important part of Funcom's strategy is to distribute its upcoming games across multiple platforms.

8.1.1 Computer Screen segment

The Computer Screen market is the largest of the four segments, and is according to NewZoo expected to grow 7 % in 2015, to USD 33.7bn. The Computer Screen segment can be divided into two sub-segments, PC/MMO Games and Casual Webgames. The PC/MMO sub-segment accounts for USD 27.1bn, or 80% of revenues. Popular PC/MMO Games include titles such as League of Legends, CrossFire, Skyrim and GTA5.

Casual Webgames is the smaller sub-segment within Computer Screens, accounting for approximately 20 % of revenue volume, or USD 6.6bn. Casual Webgames are small online games which require a minimum of long-term commitment from the user, and are typically a plug-in application installed at a games website.¹

8.1.2 Personal Screen segment

Personal Screen games are games which are played on either a smartphone or a smartwatch. Revenue volume is primarily driven by Smartphone Games as the Smartwatch Games market is still in its infancy. The Personal Screen segment is expected to grow 21 %, to USD 20.6 bn in 2015.

8.1.3 Floating Screen segment

The Floating Screen segment can be divided into two different sub-segments, Tablet Games and Handheld Games. The Handheld Games segment includes games made for devices such as Nintendo 3DS and other portable devices, while Tablet Games include games deployed for different tablet operating systems. The Floating Screen segment is expected to generate USD 12bn in 2015, increasing 13 % from 2014. The strong growth within Floating Screens is fully attributable to Tablet Games, expected to grow 27 % to USD 9.4 bn. Handheld Games however are experiencing a decline in popularity, mainly due to the strong growth in smartphones and tablets. Total revenue is expected to decrease by 16 % in 2015, to USD 2.7 bn.

8.1.4 Entertainment Screen segment

The Entertainment Screen segments consist of games developed for traditional consoles such as Xbox and PlayStation, but also of games developed for the new virtual reality (VR) consoles. Entertainment Screens are estimated to grow by 2% in 2015, to USD 25.1bn.

8.2 Future outlook of the global games market

The games market is expected to deliver consistent revenue growth the next three years, adapting to new consumer trends and digital devices. According to a global games market report by NewZoo, the games market is estimated to grow from USD 83.6bn in 2014 to USD 113.3bn in 2018²⁴, which implies a 7% increase in revenue.

The Computer Screen segment is expected to maintain its number one position within the gaming industry, growing by an annual rate of 6.9%, from USD 31.5bn in 2014, to USD 41.2bn in 2018. According to Superdata Research, PC gamers made a successful transition to online purchasing in 2015, securing the continued success of the PC segment.

Personal Screens are expected to be the fastest growing segment, surpassing Entertainment Screens as the second largest segment by 2018. In terms of market growth, the Personal Screen is expected to amount to USD 30.2bn by 2018.

Entertainment Screens are expected to grow at an annual rate of 2.3%, from USD 24.2bn in 2014 to USD 26.8 bn in 2018.

²⁴ 2015 Global games market report

Floating Screens accounted for USD 10.6bn in 2014, and are expected to grow at annual rate of 9.3% until 2018, to USD 15.1bn. Handheld Games are expected to continue to fall in popularity, decreasing at an annual rate of 22.5 % until 2018. Sales from tablet games are expected to increase, growing at an annual rate of 17.1% until 2018.

Different factors contribute to the growth in each individual segment, but some factors apply for all. Some key drivers of growth in the global games market as a whole include, but are not limited to:

- rapidly increasing broadband penetration in developing markets;
- technological innovations;
- ageing/expanding demographics – continuing increase in the average age of computer gamers;
- more mass market games;
- time spent online is still increasing;
- continued improvement in hardware performance;
- connectivity of the console market; and
- increased consumer willingness to use online payments.

8.3 Global online games market

An online game is a video game that is primarily or partially played online. The online game market has increased alongside the increased usage of internet. German research group Statista predicts

that the global online game industry will generate revenues of USD 41.2bn by the end of 2015²⁵, growing 6.2% from 2014.

The use of digital distribution platforms has increased drastically since early 2000, also in the global games industry. Compared to traditional retail distribution of games, digital distribution platforms offer several additional advantages to both gamers and developers. Such advantages include, but are not limited to:

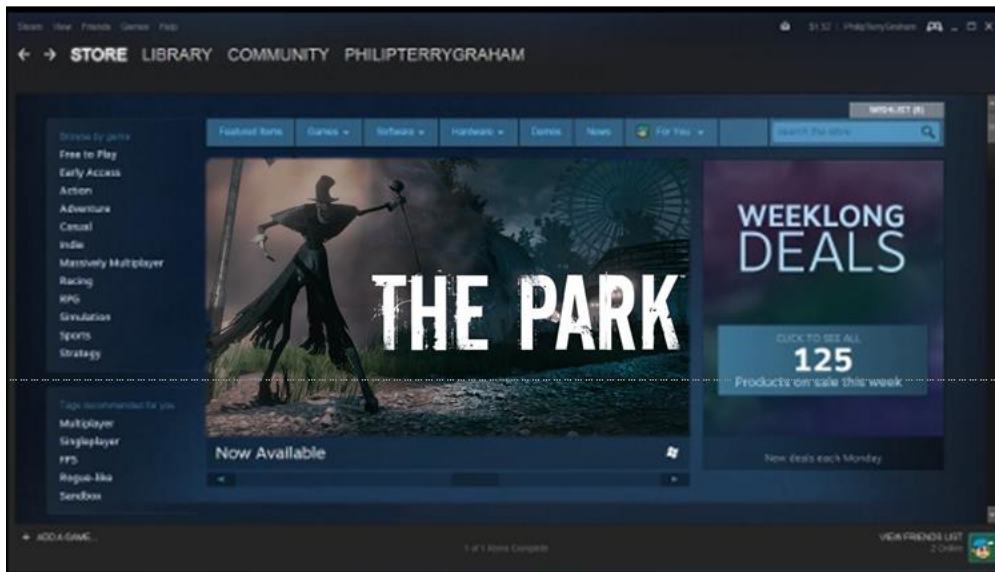

- the user can purchase the game instantly from his home. No need to travel to any retail location;
- the product is a digital file; there is no risk for the desired game to be sold out;
- the game is often cloud-based; no need for physical storage;
- digital distribution entails lower costs for the developers, which often would imply a lower price for the end-user;
- digital distribution cuts-off the retailer and its share of the profits, which should also imply lower prices for the end-user;
- digital distribution offer unlimited deployment size for developers; and
- developers can easily deploy updates that are updated automatically across all of the users devices.

8.3.1 Steam game platform

The market leading online gaming distribution platform is Steam, which is developed by the gaming software company Valve. The Company considers itself to be materially dependent on the Steam online gaming distribution platform as Steam provides the Company with the widest distribution of its games compared to other distribution platforms. In addition to the advantages mentioned above, the Steam gaming platform provides users with features such as friend's lists, groups, cloud saving and in-game voice and chat-functionality. Steamworks, a Steam application programming interface (API), enables third-party developers to implement these Steam features directly into their games. In 2015, the amount of active Steam users surpassed 125 million²⁶, which highlights the platforms popularity. The picture below illustrates the Steam platform's user interface.

²⁵ Statista statistics, statista.com, 2016

²⁶ Valve – Steam user statistics

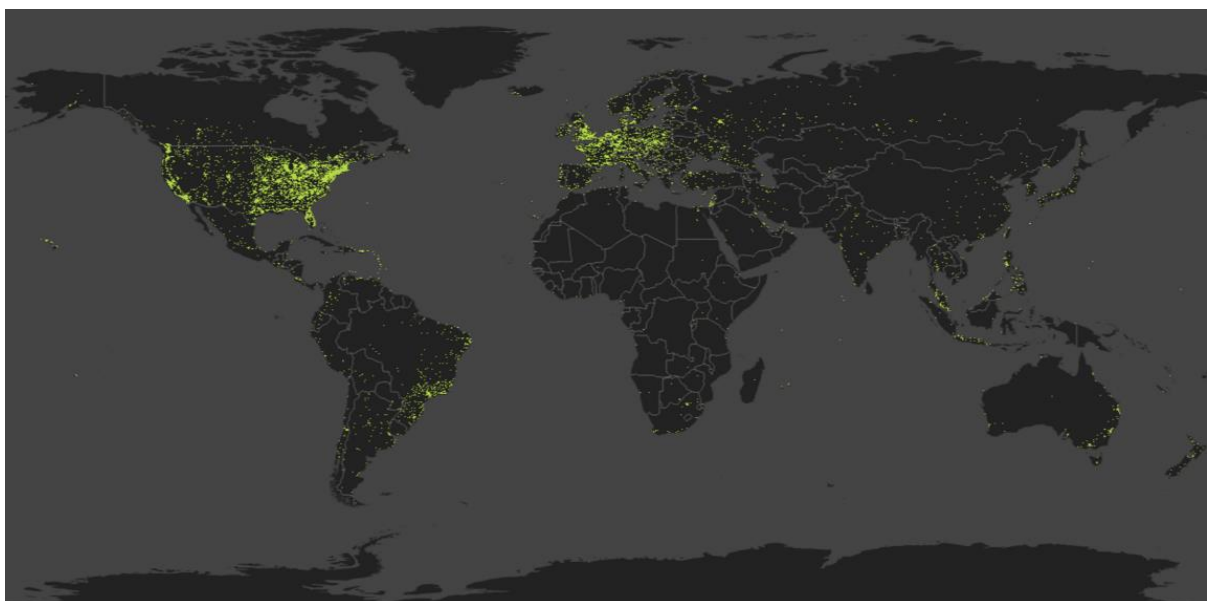

Screenshot of the Steam Client in March 2015

Valve does not share all of its market data with the public, and all partners have to sign non-disclosure agreements before entering into partnerships. However, Steam Spy, an independent Steam statistics website, estimates Steam to be responsible for 15% of the global PC game sales in 2015.

Steam's market share is however not the only reason for Steam's popularity. Its user base, combined with the platform's comprehensive third-party integration, makes the platform attractive for third-party developers.

Steam's user base consists primarily of users from Europe and North America. Steam's popularity in other parts of the world, such as Asia and the Pacific, is limited. This is highlighted in the figure below:

Steam user activity in 2014

8.3.2 Xbox Live

Xbox Live is an online gaming and entertainment service platform developed by Microsoft, and is after the launch of Windows 8 accessible from any Windows-based device. This includes Xbox consoles, PCs and other handheld Windows devices running Windows 8, 10 or Windows mobile. The subscription based games platform has approximately 39 million active users as of 2015²⁷.

8.3.3 PlayStation (PS) Network

PlayStation Network is a games platform and entertainment service developed by Sony, and is accessible from PlayStation Consoles²⁸, both portable and stationary, and from Sony BRAVIA TVs and Xperia Handsets. PlayStation Network has 65 million active monthly users as of 2015²⁹.

8.4 Relevant segments

As mentioned in the section 7.5 "Vision, goals and strategy", Funcom has in the past specialized in the deployment of MMO's. In conjunction with Funcom's future strategy for game deployment, this section highlights current and prospective genres.

8.4.1 Massive Online Multiplayer (MMO) and Massive Online Multiplayer Role-playing Game (MMORPG) segment

MMO games are games which support a large amount of players in the same world simultaneously. MMO's have traditionally attracted hard-core gamers due to the time and social commitment needed in order to develop a MMO game character. MMO games are typically developed in a way that enables the user to interact in real-time. Some MMO games employ instanced worlds where players are distributed across multiple game servers. Funcom's game, *The Secret World*, is an example of a game that deploys instanced world.

The popularity of MMO games has only increased since the genre introduction in the early 1980's, and estimates indicate that there are 23.4 million active MMO subscribers worldwide³⁰. The most popular sub-genre within the MMO segment is MMORPG. The genre is a role playing game (RPG) where the player assumes the role of a character and takes control over many of that character's actions. Examples of MMORPG games include World of Warcraft, *The Secret World*, *Age of Conan* and Final Fantasy XIV.

8.4.2 Open World Survival segment

Open World Survival games are a new segment inheriting different aspects of the MMO, RPG and Minecraft segments.

The games often start the player in a hostile and unknown environment, and the survival concept signifies that the player is constantly in jeopardy. In the life course of the game, the player must collect resources, weapons, craft tools, and find shelter and so forth. The experience is often open

ended, and the main objective is usually to stay alive, and eventually come to master the environment. The Open World Survival Segment typically features multiplayer, supporting one or more players per game world. The genre is being characterized as up and coming, currently dominated by small and medium games, developed by small to medium-sized studios. The chart below shows the top ten selling open world survival games launched on the online gaming platform Steam.

The number of games sold varies from just over 400,000 units, to about 3,400,000 units amongst the top 10 games³¹. Four out of the ten list entries were launched last year, which exemplifies the genre's increasing popularity.

9.7 Related party transactions

9.7.1 Transactions with subsidiaries and equity-accounted entities

There were continuously transactions between the Group companies and between the Group and its two equity-accounted entities, being Stunlock Studios AB (Sweden) and MMORPG Technologies Inc. (Canada), up to 31 December 2013. Funcom owned as of 31 December 2014 a 33% interest in the shares in the Swedish company Stunlock Studios AB. This percentage of ownership decreased from 42% in 2013 due to the issue of 700 new shares by Stunlock Studios AB. The principal activity of Stunlock Studios AB is the development of online computer games. This company was considered an associated company for Funcom until Funcom disposed its entire investment in Stunlock Studios AB on 30 June 2015.

Funcom owned as of 31 December 2014 a 50% share in MMORPG Technologies INC. Another party owned the remaining 50%. This company was considered a joint venture for Funcom until it was voluntarily liquidated and dissolved on 31 December 2015. In satisfying this obligation the dividend amount of CAD 320 thousands was transferred on 30 December 2014 to Funcom by way of a receivable balance. As the dividend was paid to Funcom only and not the other party, the investment balance for this entity was reduced to zero and the remainder of the dividend income was recognized as dividend income directly in the Statement of Comprehensive Income. Similarly, on 30 December 2015 a dividend of CAD 21 thousands was declared with 100% of this amount due to Funcom, satisfied through the transfer of an intercompany receivable amounting to CAD 13 thousands and by a payment in cash amounting to CAD 8 thousands.

For documents incorporated by reference, please refer to Section 15.6 "Documents incorporated by reference".

10.1.1 Going concern assessment

The funding of the operations for a period of at least one year after the date of this Prospectus is realistic and achievable. Therefore, the Executive Management is of the opinion that the going concern assumption is justified and consequently the audited condensed consolidated financial statements of the Company for the twelve months ended 31 December 2015 have been prepared on a going concern basis. Notwithstanding the above, the Management Board of the Company emphasizes that the above assessments indicate the existence of material uncertainty with regards to the performance of the games and the outcome of the current strategic review of the Company. Therefore, the actual performance of the Company may deviate significantly from the projections which may cast significant doubt on the entity's ability to continue as a going concern.

10.1.2 Statement of compliance

The consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations (IFRIC) as issued by the International Accounting Standards Board (IASB) and adopted by the EU.

The unaudited condensed consolidated financial statements of the Company for the three months ended 31 March 2016 have been prepared in accordance with IAS 34. The latter means that these interim financial statements do not include all information and disclosures required in annual financial statements but only selected significant information. The principles applied are consistent with those used in the 2015 annual report.

The Group has as of 1 January 2015 adopted the mandatory revised standards, amendments to existing standards and interpretations as adopted by the EU, applicable for this period. Their

adoption has not had any significant impact on the amounts reported in this interim report but may affect the accounting for future transactions or arrangements. The Executive Management has not yet completed the evaluation of the impact on the financial statements of standards issued but which have an adoption date on 1 January 2016 or later.

10.1.3 Presentation and functional currency

The consolidated financial statements are presented in US dollar (USD), which is the Company's functional currency, rounded to thousands. It is expected that US dollar will remain as the main currency in the Group's economic environment, due to a majority of US dollar revenues. All amounts are in USD thousand unless stated otherwise. There may be some minor rounding differences or the total may deviate from the total of the individual amounts. This is due to the rounding to whole thousands of individual amounts.

10.1.4 Basis of measurement

The consolidated financial statements have been prepared on an historical cost basis unless otherwise stated in these accounting policies.

10.1.5 Estimates and judgments

The preparation of financial statements in conformity with IFRS requires the Executive Management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

10.1.6 Basis of consolidation

The Financial Statements and the Interim Financial Statements comprise of Funcom and companies in which Funcom has a controlling interest. Investments in associated companies and jointly controlled entities are incorporated using the equity method.

10.1.7 Accounting policies

The accounting policies are set out under Note 2 and following of the financial statement for 2015. These accounting policies have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by Group entities.

10.3 Operating and financial review

10.3.1 Review of Funcom's financial position and financial results for 2014

Funcom's revenue for 2014 was USD 12,593 thousand compared to USD 21,409 thousand in 2013. The overall decrease of USD 8,816 thousand was due to the natural decline in revenues from its ageing Live Games *Anarchy Online*, *Age of Conan* and *The Secret World*, whilst revenues of LEGO® *Minifigures Online* had not yet materialized. At the end of Q3 FY14, the Company announced that it will take longer than planned for the LEGO® *Minifigures Online* game to reach its internal target in terms of users and revenues.

The operating costs (excluding impairment) decreased by approximately 21% in comparison to 2013 as a result of the continued restructuring of the Company and other cost savings measures. In spite of this, the corresponding operating result for 2014 was USD -8,117 thousand compared to USD -4,880 thousand in 2013. Despite the positive factors stated above, the decrease in the operating result is partly due to larger impairment losses of USD 5,760 thousand reported in 2014 compared to USD 4,200 thousand in 2013. The impairment losses in 2014 resulted from the revised revenue estimates going forward which were caused by declining revenues from *The Secret World* and by the anticipation that it will take longer than anticipated for LEGO® *Minifigures Online* to reach its internal target for players and revenues. The lower contribution margin from *The Secret World* was caused primarily by a misalignment between declining revenues due to the ageing of the game and the costs of running it. Therefore the Company revised further its projections which caused the

value in use of *The Secret World*, LEGO® *Minifigures Online* and the underlying version of the *Dreamworld Technology* to be lower than their net book value and resulted in an impairment loss of USD 5,760 thousand recorded in Q3 2014. The performance of some of these games recovered in Q4 2014, however impairment losses booked were not reversed following a prudent approach and taking into account the uncertain nature of estimating future cash flows. The process of estimating future cash-flows is in accordance with the Company's internal quarterly review process. As such, the Executive Management will continue to monitor the value of Funcom's assets and inform the market of any material changes.

As a result of the above, the Company reported a net loss for 2014 of USD -8,761 thousand compared to USD -4,538 thousand for 2013. Thus the earnings per share (basic and fully diluted) decreased from USD -0.07 at the end of 2013 to USD -0.11 at the end of 2014.

The equity of the Company at year-end increased to USD -2,756 thousand compared to USD -5,561 thousand in 2013 mainly as a result of three drawdowns on the Equity Facility amounting to 7,345 thousand Shares, increasing equity by USD 4,479 thousand. The equity position was further improved by the exercise of 15 million warrants by KGJI at a price of USD 0.37 per Share, increasing equity by USD 5,550 thousand, as well as smaller gains from the exercise of options by employees.

Offsetting these gains however were operating losses of USD 8,117 thousand largely driven by USD 5,760 thousand of impairment losses booked in Q3 2014, as well as net foreign exchange losses of USD 1,331 thousand.

In Q4 2013, the Company negotiated the Working Capital Loan with KGJI in the amount of USD 5,500 thousand. The first installment of USD 3,000 thousand was received in December 2013, the second of USD 1,250 thousand in Q1 2014 and the last installment of USD 1,250 thousand was received in Q3 2014. On 26 August 2014, an amount of USD 1,550 thousand was converted from the Working Capital Loan into the Convertible Loan. The balance of the Working Capital Loan stands at USD 3,950 thousand.

The cash position of the Company at year-end is USD 3,705 thousand compared to USD 2,582 thousand at the end of 2013. In addition to the cash generated from its Live Games the Company had at its disposal installments under the Working Capital Loan (see Note 24 and 28 of the financial statements for 2014) and the Equity Facility of up to USD 22,000 thousand as an immediate source of financing. Under the Equity Facility drawdowns can be made in tranches at the Company's discretion, on average every 20 to 30 days up to the maximum amount of USD 22,000 thousand. The first draw down was successfully completed in April 2014 and the company raised USD 1,625, thousand, the second completed in May 2014 raised USD 1,977 thousand and the third completed on 16 December 2014 raised USD 898 thousand (see note 27 of the financial statements for 2014).

10.3.2 Review of Funcom's financial position and financial results for 2015

Revenues in 2015 are USD 10,238 thousand compared to USD 12,593 thousand in 2014 following a gradual and expected decrease in sales from the current Live Games.

The Company continued its cost-saving efforts in 2015 and realized operating cost savings of USD 3,420 thousand in comparison to 2014. In consequence, the Earnings before Interest, Tax,

Depreciation and Amortization ("EBITDA")⁵⁴ for 2015 increased to USD 393 thousand compared to USD -672 thousand in 2014.

The revenues generated by the game LEGO® *Minifigures Online* did not meet the internal forecasts. The Company has therefore fully written-off the underlying asset and the related *Dreamworld Technology*, and recorded in 2015 an impairment charge of USD 3,156 thousand in relation to this game.

Earnings before Interest and Tax ("EBIT")⁵⁵ for 2015 were USD -6,179 thousand compared to USD -8,117 thousand in 2014, mainly due to the significant impairment charges recorded in both periods.

The loss for the period was USD -6,789 thousand compared to USD -8,761 thousand in 2014.

The cash position at the end of 2015 was USD 616 thousand compared to USD 3,705 thousand at the end of 2014.

The total equity of the Company decreased from USD 2,756 thousand at the end of 2014 to USD -9,561 thousand at the end of 2015, mainly due to the accumulated losses of USD -6,789 thousand recorded in 2015.

The significant changes to the Company's financial or trading position after 31 March 2016 include the signature on April 13, 2016 by KGJI and the Company of an agreement to combine the USD 3,950 thousand Working Capital Loan (maturity date 15 December 2016 and 8% interest rate) and the USD 4,000 thousand Convertible Loan (maturity date 27 June 2017, 5% interest rate and USD 0.86 conversion price) into a new Convertible Loan of USD 7,950 thousand with maturity date of 30 June 2019⁵⁸, interest rate of 6%, and conversion price of USD 0.18 per share. The financial impact of these changes in the new Convertible loan has been taken into account in the above capitalization and indebtedness tables. Furthermore, Funcom completed the Private Placement on 26 May 2016, implying issuance of 95,970,000 New VPS Shares at a price of USD 0.07 per New VPS Share⁵⁹, increasing the share capital of the Company by USD 4,276,039⁶⁰ and other reserves by USD 2,044,354⁶¹, yielding gross proceeds (increase in cash) to the Company of USD 6,320,393⁶² and the completion of the Debt Conversion on 26 May 2016, implying issuance of 48,777,778 Conversion VPS Shares at a price of USD 0.18 per Conversion VPS Share, increasing the share capital of the Company by USD 1,906,007⁶³ and other reserves by USD 5,793,993 including any portion of the convertible loan that was already recognized under the equity. The financial impact of these changes in the Private Placement and in the Debt Conversion has been taken into account in the above capitalization and indebtedness tables. Finally, the Company paid to its major creditor, KGJI, the interest due on the working capital loan and convertible loan with respect to 4Q15 and 1Q16 for a total amount of USD 262,301. The financial impact of the payment of this interest due has been taken into account in the above capitalization and indebtedness tables. Apart from the above, there has not been any significant changes to the Company's financial or trading position after 31 December 2015.

As of 31 December 2014 the Group had a contingent liability related to the ØKOKRIM charge (please refer to Section 15.3 "Legal and arbitration proceedings" for further information). On 23 October 2015, the Company accepted a fine of NOK 1,500 thousands from ØKOKRIM (the Norwegian National Authority for Investigation and Prosecution of Economic and Environmental Crime). The fine was paid on 17 December 2015. The payment of the fine has been reflected in the audited annual accounts for 2015 and is reflected in the capitalization and indebtedness tables above.

The Company agreed through an amendment agreement dated 26 October 2015 relating to the Bond Agreement that upon the occurrence of a "*sale of some, all or parts of the Issuer's subsidiaries or other assets*" prior to the maturity date of the Bond Agreement (which will be 31 December 2018,

- (i) to redeem outstanding loans (firstly the Bonds and thereafter other outstanding loans) in full if the Proceeds are sufficient; or
- (ii) to apply a minimum of 80% of the Proceeds to redeem the outstanding loans.

10.5 Working capital statement

The Company is of the opinion that the current working capital is sufficient for the Group's present requirements for at least the next twelve months.

The raising of additional capital in the Subsequent Offering will result in the Group further strengthening its working capital. Successful completion of the Subsequent Offering is not a condition for having sufficient current working capital for at least the next twelve months.

10.6 Trend information

This section sets out information on trends and other factors which may affect the financial position of the Group.

10.6.1 The Funcom strategy

Funcom has recently decided to shift its strategy. For further information, please refer to Section 7.3 "The new Funcom strategy".

10.6.2 Games in operation

Overall, Funcom's large scale MMOs continue to generate a positive net contribution to the business and investment levels are constantly reviewed and aligned with expected revenue to ensure that they will continue to contribute positively to the Company in the future.

LEGO® *Minifigures Online* continued to underperform and failed to meet overall revenue expectations. Investment levels have been reduced to the minimum necessary to meet pre-established commitments

The Park was released for the PC platform on 27 October 2015 and on 3 May 2016 for Xbox One and PlayStation 4. It is available in multiple online sales channels, including Steam, and sales are in line with internal expectations. The project's non-revenue related goals were also met successfully:

- (i) adapting to short development cycles and small budgets to allow for quick experimentation;
- (ii) generating high amounts of press and community attention without a marketing budget;
- (iii) learning a new technology (Unreal Engine 4) and starting to adapt it to the *Dreamworld Technology* engine;

⁶⁴ KGJI has sufficient votes at the bondholders' meeting to have control over such meeting.

- (iv) leverage the assets and content from *The Secret World* to speed up development of other products; and
- (v) grow the value of *The Secret World* intellectual property by creating more products connected to it.

10.7 Investments

10.7.1 General

The investments of Funcom consist mainly of cumulated capitalized expenses for the development of games and technology. This intellectual property is owned by the Company and recognized in the balance sheet if it can be proven that there are probable future economic benefits that can be attributed to the assets which are owned by the Company, and the assets' cost price can be reliably estimated. Intangible assets are initially recognized at their cost price and subsequently measured using the cost method (*i.e.* historical cost less accumulated amortization and accumulated impairment losses). A review to assess whether there are indicators of impairment is undertaken at the end of each reporting period. In addition, intangible assets not yet available for use are tested for impairment annually.

The Company amortizes investment in the development of technology and game assets on a systematic basis over their useful life which normally does not exceed five years. The Company applies the diminishing balance amortization method which reflects the pattern of consumption of the future economic benefits. If that pattern cannot be determined reliably the company uses the straight-line method.

For further details on the Company's investments, reference is made to the financial statements for 2014, and especially to the Note 11 "Intangible assets" and the Note 12 "Equipment".

10.7.2 Book value of investments

As of 31 December 2015, the main intangible assets of the Company were the large scale MMO's *The Secret World* (USD 1,882k, 2014: USD 1,974k) and *Age of Conan* (USD 577k, 2014: USD 344k), and the *Dreamworld Technology* (USD 1,847k, 2014: USD 2,451k).

Other large scale MMO's of the Company like *Anarchy Online* (2014: no book value) and LEGO® *Minifigures Online* (2014: USD 2,489k) have been fully written-off over prior periods, and have therefore no carrying value as of 31 December 2015.

As of 31 December 2015, other minor investments include tangible fixed assets (USD 100k, 2014: USD 253k), software (USD 88k, 2014: USD 123k), and long-term receivables (USD 65k, 2014: USD 19k).

During the year 2015, the Company disposed its investments in the associate companies MMORPG Technologies Inc. (Canada) and Stunlock Studios AB (Sweden) (2014: USD 195k).

10.7.3 Ongoing investments

The Company is working on switching to the new strategy while developing and operating the Live Games.

The Park was released for Xbox One and PlayStation 4 on 3 May 2016, to both bring additional revenue and develop internal competencies related to console development.

Prototyping and concept development for new titles will continue throughout the end of 2015 and during 2016 and will follow the goals established in the Company strategy.

The Company has announced *Conan Exiles* as a new game of the "larger" type, and intends to announce two "smaller" games later this year. This is in line with the new Funcom strategy, as described in section 7.3 "The new Funcom strategy". *Conan Exiles* is targeted to be released for the PC platform in the Steam store in Early Access on 13 September 2016, with full launch on PC and consoles at a later stage. One of the "smaller games" has, as announced in the Q1 2016 financial report, passed internal prototyping and approval, being a small multiplayer game based on "*The Secret World*" IP designed to experiment and innovate in a small niche market and build the internal competency of the North Carolina team in Unreal Engine 4. This game is preliminarily scheduled for release on PC in Q4 2016 and due to their budget limitation and experimental focus is expected to have limited revenue impact.

The investments are mainly debt-financed, due to the negative equity position of the Company (USD -9,561 as of 31 December 2015)

10.7.4 Planned investments

The Company will focus on investing in different types of products and production cycles, including:

- (i) developing small and innovative games, focused on trying new concepts, experimenting with new technology and platforms and utilizing our intellectual properties, while keeping the investment level low;

- (ii) developing larger games, focused on genres or game types where we can create products of higher production value than the competition, using our own or 3rd party intellectual properties and drawing from the innovation and experimentation of the smaller products to lower the overall risk;
- (iii) upgrading the *Dreamworld Technology* to integrate with third parties; and
- (iv) leveraging and growing the internal Intellectual Properties such as *Anarchy Online*, *The Longest Journey* and *The Secret World*.

The abovementioned investments will be funded by available working capital. The Company has not made any firm commitments to any future investment.

The product development and release plan for is a minimum of one small game released per year and one larger game to be in development at all times per development studio, which is in line with the new Funcom strategy. For further information on the new Funcom strategy, please refer to Section 7.3 "The new Funcom strategy".

Additionally, the company will keep developing and supporting the existing MMORPGs as they are an important source of revenue and drive the internal intellectual properties.

Both development studios are scheduled to have fully switched to the new Funcom strategy by 2Q16.

10.8 Financial statements and auditors

10.8.1 Financial statements

The Company's financial statements for the financial years 2014 and 2015, and the quarterly reports for Q1 2015 and Q1 2015 are incorporated by reference hereto. Please refer to Section 15 "Additional information" for further information.

10.8.2 Auditor

The Company's historical financial information has since November 2014 been audited by BDO Audit & Assurance B.V., registration number 17171186, with registered business address at Dr Holtroplaan 23, Eindhoven, the Netherlands. BDO Audit & Assurance B.V is a member of the Netherlands Institute of Chartered Accountants (*Nederlandse Beroepsorganisatie van Accountants*). The annual report for 2014 was audited by BDO Audit & Assurance B.V.

In the 2014 auditor's report, the following qualification was given:

Material uncertainty related to going concern

We draw attention to the going concern paragraph in note 2.1 to the consolidated financial statements where it is described that the company has negative equity at the end of 2013 as well as at the end of 2014 and is depending on the ability to generate sufficient cash inflows from both sales and new financing. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In order to remedy to this qualification, the Company has tried to improve its equity position by increasing its revenues from current and new games, by decreasing its operating costs, and by securing new financing. However, this approach revealed not being successful as the equity deteriorated from USD -2,756 thousand as of 31 December 2014 to USD -9,561 thousand as of 31 December 2015, mainly due to a loss for the period amount to USD 6,789 thousand.

In the 2015 auditor's report, the following qualification was given:

Material uncertainty related to going concern

We draw attention to the going concern paragraph in the notes on page 36⁶⁵ of the financial statements which indicates that the performance of the Company is largely affected by its ability to generate sufficient cash inflows from both sales and new financing. The Company is depending on the positive outcome of these factors. These conditions indicate that a material uncertainty exists which may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In the course of 2014, the Company changed its statutory auditor from Mazars Paardekooper Hoffman Accountants N.V. to BDO Audit & Assurance B.V. in order to meet the global presence of the company, with operations in countries where Mazars Paardekooper Hoffman Accountants N.V. did not have local capabilities. BDO Audit & Assurance B.V. was already involved in the audit of the Company for numerous years through its affiliated firm in Norway, and therefore well-known with the Company's operations and processes.

10.9 Research and development

Costs relating to research are recognized as an expense when incurred.

Expenses relating to development, such as labor cost, material costs and other directly attributable costs are recognized as an expense when they are incurred unless the following criteria are met:

- (i) the product or process is clearly defined and the cost elements can be identified and measured reliably;
- (ii) the technical solution for the product has been demonstrated;
- (iii) the product or process will be sold or used in the Company's operations;
- (iv) the asset will generate future economic benefits; and
- (v) sufficient technical, financial and other resources for completing the project are present.

When all the above criteria are met, subsequent costs relating to development will be capitalized. Capitalized development expenditure is stated at cost less accumulated amortization and impairment losses.

Development costs are amortized from the date that the assets are available for use, normally over 5 years. Subsequent improvements and/or additions are amortized separately over the expected useful lives, normally over 5 years, from the time these improvements and/or additions are completed and available for use.

⁶⁵ Reference should in fact be made to page 37 of the annual report for 2015.

Inefficiencies are tracked on a regular basis and identified inefficiencies related to an internally generated intangible asset will be expensed when identified. In addition, an overall evaluation is performed by the end of each financial year.

For further details on research and development, reference is made to the financial statements of the Company, and especially to the "Report of the Management Board", to the Note 2 "Summary of significant accounting policies", and to the Note 11 "Intangible Assets".

10.10 Debt overview

10.10.1 The Bonds

Overview

As of the date of this Prospectus, 62 Bonds are still outstanding. These bonds have a face value of USD 100,000 (total USD 6,200,000), 5% coupon and are due on 15 December 2016. They are convertible into common Shares of Funcom at a conversion price of USD 0.24 per Share. The interest is payable at maturity or conversion in either cash or Funcom shares at the discretion of the bondholder. For further information on the Bonds, please refer to Section 11.5.1 "Convertible loans".

In a bondholders' meeting planned to be held in June or July 2016, the bondholders will be requested to resolve the following amendments to the terms of the Bond Agreement:

- the maturity date will be extended from 15 December 2016 to 31 December 2018; and
- the interest rate will be decreased to 3.5% p.a.

KGJI has, as part of the agreement to restructure the debt, agreed to vote in favor of the amendments set out above in the upcoming bondholders' meeting.

In addition, the conversion price of the Bonds will be adjusted due to the Private Placement in accordance with the customary adjustment provisions set out in the Bond Agreement. This implies that the conversion price will be adjusted as the Private Placement Subscription Price of NOK 0.55 of the 95,970,000 New VPS Shares was lower than the prevailing quoted price on the VPS Shares on the date of the Private Placement. Funcom has discussed this matter with Nordic Trustee ASA (the "**Bond Trustee**") and, based on that discussion, the new conversion price will be USD 0.1036.

As part of the agreement to restructure the Company's debt under the Bonds and the Convertible Loan, KGJI has accepted a lock-up undertaking in respect of the Bonds on the following main terms:

- (i) KGJI will not and it will procure that none of its respective subsidiaries nor any other party acting on its behalf (other than the Manager) will, without the prior written

consent⁶⁶ of the Manager, directly or indirectly:

- (a) offer, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of any Bonds, or any options or any securities convertible into or exercisable or exchangeable for the Bonds or subscription rights pursuant to the Bonds;
 - (b) (enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Bonds, whether any such transaction described in (a) or (b) above is to be settled by delivery of cash or securities; or
 - (c) convert the Convertible Loan or any Bonds under the Convertible Bond to shares in the Company.
- (ii) The lock-up undertaking in favor of the Bonds shall cease on 31 December 2016 or upon the earlier occurrence of any of the following:
- (a) A voluntary offer is launched for the shares in the Company (or similar transaction); or
 - (b) the Company enters into a merger or business combination agreement in which the ownership of the existing shareholders of the Company are diluted to less than 80% of the merged company.

Covenants

The Bond Agreement contains customary restrictions and covenants, being information covenants, covenants on conduct (*i.e.* no change of nature of business of the Group) or disposal of the business of the Company or any Group company, covenants on related party transactions which are not made on arms-length terms, restrictions on dividend payments, covenant to keep the VPS Shares registered with the VPS and financial indebtedness restrictions.

More specifically, the following covenants have been agreed in the Bond Agreement:

Information covenants:

During the term of the Bonds the Company shall comply with the following information covenants, unless the Bond Trustee (or the bondholder's meeting, as the case may be) has agreed in writing to waive any covenant, and then only to the extent of such waiver, and on the terms and conditions set out in such waiver:

- (i) immediately inform the Bond Trustee of any event of default as well as of any event or circumstance that may lead to an event of default;
- (ii) of its own accord, make annual financial statements and unaudited financial statements in the English language available on the Company's website (alternatively by sending them to the Bond Trustee for publication on www.stamdata.no) as they are available, and not later than 150 days after the end of the financial year and not later than 60 days after the end of the relevant interim report period;

⁶⁶ Such consent may be given at any time for the term of the lock-up undertaking and at the Manager's sole discretion.

- (iii) at the request of the Bond Trustee send a report outlining the balance of the Bonds;
- (iv) forward to the Bond Trustee copies of any creditor's notifications of the Company including but not limited to; mergers, demergers and reduction of shareholders' capital;
- (v) at the request of the Bond Trustee provide the documents and information necessary to enable the Bond Trustee to carry out its rights and duties pursuant to the Bond Agreement and applicable laws and regulations;
- (vi) within a reasonable time limit provide information about the Company's financial condition as the Bond Trustee may reasonably request, always subject to compliance with relevant laws and regulations regarding dealing with insider information;
- (vii) annually deliver a compliance certificate to the Bond Trustee concerning the Company's compliance with the agreed covenants. In the event of non-compliance, the reasons thereof as well as the steps which the Company has taken to and will take in order to rectify the non-compliance;
- (viii) of its own accord, inform the Bond Trustee of any event that results in an adjustment of the conversion price of the Bonds; and
- (ix) following the occurrence of a change of control event, immediately after the Company becomes aware of it, notify the Bondholders and the Bond Trustee. The notice shall specify (i) the Bondholders' entitlement to exercise their right to require redemption of the Bonds at 100 % of par plus accrued interest, (ii) the period each Bondholder may require redemption and (iii) details concerning the change of control event.

General covenants

During the term of the Bonds, the Company shall (unless the Bond Trustee or the Bondholders' meeting (as the case may be) in writing has agreed to otherwise) comply with the following general covenants:

- (i) not, and ensure that no material subsidiary shall:
 - (a) cease to carry on its business;
 - (b) sell or dispose of all or a substantial part of its assets or operations;
 - (c) change the nature of its business; or
 - (d) merge, demerge or in any other way restructure its business other than solvent restructuring of the Group;
 in a manner which (in the reasonable opinion of the Bond Trustee) is likely to have a material adverse effect.
- (ii) not declare or make any dividend payments or other distributions or loans to its shareholders – whether in cash or in kind – including without limitation repurchase of shares, any total return swaps or instruments with similar effect and reductions in share capital or equity; and
- (iii) not engage in, directly or indirectly, any transaction with any related party, except in the ordinary course of such member of the Group's business and upon fair and reasonable terms that are no less favorable to the member of the Group than those which might be obtained in an arm's length transaction at the time.

Financial indebtedness restrictions:

During the term of the Bonds, the Company shall not, and shall ensure that no member of the Group will, incur or create any financial indebtedness (whether secured or unsecured), except for:

- (i) financial indebtedness created pursuant to the terms of the Bond Agreement (meaning financial indebtedness in the form of the Bonds and the financial indebtedness described in (ii) and (iii) below);
- (ii) refinancing of the Company's USD 10,000,000 senior unsecured loan with warrants in the maximum principal amount of USD 10,000,000 (or its equivalent in other currencies), not being subject to any encumbrance or guarantee and ranking no better than pari passu with the Bonds;
- (iii) at the option of the Company, either financial indebtedness (i) in the aggregate maximum amount of USD 5,000,000 (or its equivalent in other currencies) subject to any encumbrance or guarantee or prior ranking to the Bonds, or (ii) in the aggregate maximum amount of USD 10,000,000 (or its equivalent in other currencies) subject to no encumbrances and of no better ranking than pari passu with the Bonds, of which combinations of (i) and (ii) shall be permitted in a ratio of 1:2.

Conversion Rights etc.

- (i) During the term of the Bonds, the Company shall ensure that all Shares issued upon exercise of conversion of the Bonds shall be registered in the VPS and listed on Oslo Børs as soon as possible; and
- (ii) During the term of the Bonds, the Company shall not take any action, and shall procure that no action is taken, that would otherwise result in a reduction of the conversion price such that the Shares issued upon conversion would fall to be issued at a discount to their par value.

10.10.2 Convertible Loan

Overview

On 26 August 2014, the Company entered into a convertible loan with KGJI with a principal amount of USD 4,000,000 (the "**Convertible Loan**") after restructuring of existing debt (an interest bearing loan of USD 2,450,000 and USD 1,550,000 of the Working Capital Loan). In April 2016, the Working Capital Loan was restructured into the Convertible Loan. Simultaneously, the conversion price, maturity date and interest rate was amended. The Convertible Loan has a principal amount of USD 7,950,000.

Under the Convertible Loan, there has been agreed a prepayment option. Upon the occurrence of a prepayment option event (being a sale of some, all or parts of the Issuer's subsidiaries or other assets prior to the maturity date of the Convertible Loan (31 December 2016, cf. below), the Company has the possibility to apply any proceeds from such sales (the "Proceeds") to redeem the outstanding loans (first the Convertible Loan, than the Bond and thereafter other outstanding loans) in full if the Proceeds are sufficient as follows:

- to redeem the outstanding loans; or
- to apply a minimum of 80% of the Proceeds to redeem the outstanding loans.

Further, in May 2016 USD 7.7 million of the outstanding principal of the Convertible Loan was settled in the Debt Conversion through issuance of 42,777,778 Conversion VPS Shares at a conversion price of USD 0.18 per Conversion VPS Share and the maturity date of the Convertible Loan was changed to 31 December 2016.

The agreed conversion price in the Convertible Loan is currently USD 0.18 per Share. However, the conversion price will be adjusted due to the Private Placement in accordance with the customary adjustment provisions set out in the Convertible Loan agreement. This implies that the conversion price will be adjusted as the Private Placement Subscription Price of NOK 0.55 of the 95,970,000 New VPS Shares was lower than the prevailing quoted price on the VPS Shares on the date of the Private Placement. Funcom has discussed this matter with KGJI and based on that discussion, the new conversion price will be USD 0.1036.

The interest rate of the Convertible Loan is 6% per annum. The maturity date of the Convertible Loan is 31 December 2016.

As part of the agreement to restructure the Company's debt under the Bonds and the Convertible Loan, KGJI has accepted a lock-up undertaking in respect of the Bonds on the following main terms:

- (i) KGJI will not and it will procure that none of its respective subsidiaries nor any other party acting on its behalf (other than the Manager) will, without the prior written consent⁶⁷ of the Manager, directly or indirectly:
 - (a) offer, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend, or otherwise transfer or dispose of the Convertible Loan, or any options or any securities convertible into or exercisable or exchangeable for the Convertible Loan or subscription rights pursuant to the Convertible Loan; or
 - (b) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of Convertible Loan;

whether any such transaction described in (a) or (b) above is to be settled by delivery of cash or securities; or
 - (c) convert the Convertible Loan to Shares in the Company.
- (ii) The lock-up undertaking in favor of the Bonds shall cease on 31 December 2016 or upon the earlier occurrence of any of the following:
 - (a) A voluntary offer is launched for the shares in the Company (or similar transaction); or
 - (b) the Company enters into a merger or business combination agreement in which the ownership of the existing shareholders of the Company are diluted to less than 80% of the merged company.

Covenants

The loan agreement governing the Convertible Loan contains customary restrictions and covenants, being information covenants, covenants on conduct (*i.e.* no change of nature of business of the

Group) or disposal of the business of the Company or any Group company, covenants on related party transactions which are not made on arms-length terms, restrictions on dividend payments, covenant to keep the VPS Shares registered with the VPS and restrictions on creation of security interests over the Company's assets.

More specifically, the following covenants have been agreed between the Company and KGJI:

Information covenants:

As long as any amount is outstanding under the loan agreement governing the Convertible Loan, the Company shall comply with the following information covenants, unless KGJI has agreed in writing to waive any covenant, and then only to the extent of such waiver, and on the terms and conditions set out in such waiver:

- (iii) immediately inform KGJI of any event of default as well as of any event or circumstance that may lead to an event of default;
- (iv) provide audited annual financial statements and unaudited financial statements in the English language to KGJI as soon as they are available, and not later than 150 days after the end of the financial year and not later than 60 days after the end of the relevant interim report period;
- (v) forward copies of notifications to the Company's creditors, for instance (but not limited to) notifications related to mergers, demergers and reductions of share capital;
- (vi) upon the reasonable request of KGJI, and within a reasonable time limit, provide information about the financial condition of the Company (however, always subject to compliance with relevant laws and regulations regarding dealing with insider information);
- (vii) inform KGJI of any event that results in an adjustment of the conversion price of the Convertible Loan; and
- (viii) upon an event implying a change of control in the Company, Funcom shall immediately inform KGJI.

General covenants

During the term of the Convertible Loan, the Company shall (unless KGJI in writing has agreed otherwise) comply with the following covenants:

- (i) not, and ensure that no material subsidiary shall:
 - (a) cease to carry on its business;
 - (b) sell or dispose of all or a substantial part of its assets or operations;
 - (c) change the nature of its business; or
 - (d) merge, demerge or in any other way restructure its business other than solvent restructuring of the Group.in a manner which (in the reasonable opinion of KGJI) is likely to have a material adverse effect.
- (ii) not declare or make any dividend payments or other distributions or loans to its shareholders – whether in cash or in kind – including without limitation repurchase of shares, any total return swaps or instruments with similar effect and reductions in

- share capital or equity;
- (iii) not engage in, directly or indirectly, any transaction with any related party, except in the ordinary course of such member of the Group's business and upon fair and reasonable terms that are no less favorable to the member of the Group than those which might be obtained in an arm's length transaction at the time; and
 - (iv) as long as any amount is outstanding under the Convertible Loan Agreement, the Company may not create or permit to subsist any mortgage, charge, lien, pledge, or other security interest over any of the assets of the Company without prior written consent of KGJI.

Conversion Rights etc.

During the term of the Convertible Loan, the Company shall ensure that all Shares issued through conversion under the Convertible Loan are registered in the VPS and listed on Oslo Børs as soon as practicable after the relevant conversion.

10.11 Standby equity facility

On 25 May 2012, Funcom announced that it had strengthened its financial flexibility through an up to USD 22 million standby equity facility (the "**Equity Facility**") with YA Global Master SPV, Ltd. ("**YA Global Master**"), a fund managed by USD based Yorkville Advisors LLC. The Equity Facility expired on 25 May 2015.

The Equity Facility gave Funcom access to additional capital by drawdowns of funds in exchange for issuing New VPS Shares to YA Global Master.

In total, Funcom utilized EUR 3,777,152 of the Equity Facility through issuance of 9,108,203 Shares.

10.12 Significant changes in financial and trading position after 31 December 2015

In January 2016, KGJI confirmed that it is willing to continue to support the Company by integrating the Working Capital Loan into the Convertible Loan, and by subsequently deferring the maturity of the Convertible Loan from 27 June 2017 to 30 June 2019. The changes to the Convertible Loan and the Working Capital Loan were formally resolved by the extraordinary General Meeting on 25 February 2016. KGJI also confirmed that it is willing to postpone the maturity of the Bonds from 15 December 2016 to 31 December 2018. These changes to the terms of the Bond Agreement are expected to be formally resolved in a bondholders' meeting to be held in June or July 2016.

On 19 April 2016, KGJI transferred USD 500 thousand to the Company as a bridge loan with 5% interest payable at maturity. The maturity date is the earlier of 1 July 2016 and two business days after the Company receives proceeds from the Private Placement. The bridge loan was repaid to KGJI prior to the date of this Prospectus.

In May 2016, the Company entered into an agreement to restructure its debt under the Convertible Loan and the Bonds, and thereby settled USD 7.7 million of the outstanding principal under the Convertible Loan through issuance of 42,777,778 Conversion VPS Shares at a conversion price of USD 0.18 per Conversion VPS Share. Further, the maturity date of the Convertible Loan was agreed to be set at 31 December 2016 and the interest rate of the Bonds shall be decreased to 3.5% p.a. (pending approval by the bondholders meeting).

These facilities will provide cash relief to Funcom in 2016, 2017 and 2018 to focus on attracting and utilizing funds for the development of new games.

The Company has completed the Private Placement and also expects to complete the Subsequent Offering within the end of August 2016.

As of the date of this Prospectus, the Group is not aware of any governmental, economic, fiscal, monetary or political policies or factors that have materially affected, or could materially affect, directly or indirectly, the Group's operations.

Except for the abovementioned, there has been no significant change in the financial or trading position of the Group since 31 December 2015.

The Company has issued both convertible bonds and entered into a convertible loan agreement, as described below.

Convertible bonds:

On 21 December 2011 Funcom issued 150 Bonds with a face value of USD 100,000 (total USD 15,000,000) and 10 % coupon due on 22 December 2014 and convertible into VPS Shares of Funcom at a price of 1.37 USD per VPS Share.

In a bondholders' meeting held on 3 April 2013, the bondholders resolved to make the following amendments to the terms of the Bond Agreement:

- The maturity date was extended from 22 December 2014 to 22 December 2015;
- The fixed rate was adjusted from 10% to 5% per annum;
- interest on the Bonds will accrue based on the amended fixed rate and become payable on the earlier of the conversion date or the extended maturity date at the option of the bondholders in either cash or VPS Shares; and
- the conversion price was adjusted from USD 1.37 to USD 0.37 per VPS Share.

In a bondholders' meeting on 26 October 2015, the bondholders resolved to make the following amendments to the terms of the Bond Agreement:

- the maturity date was extended from 22 December 2015 to 15 December 2016;
- the conversion price was adjusted from USD 0.37 to USD 0.24 per VPS Share;
- introduction of a "prepayment option", which gives Funcom (under certain conditions) the possibility to redeem (all or a part of) the loans outstanding under the Bond Agreement.

The aforementioned certain conditions are met upon the occurrence of a prepayment option event (being a sale of some, all or parts of the Issuer's subsidiaries or other assets prior to the maturity date of the Bond Agreement (which, if accepted by the bondholder's meeting that KGJI is controlling, cf. below – will be: 31 December 2018), the Company has the possibility to apply any proceeds from such sales (the "Proceeds") to redeem the outstanding loans (first the Convertible Loan, than the Bond and thereafter other outstanding loans) in full if the Proceeds are sufficient as follows:

- to redeem the outstanding loans; or
- to apply a minimum of 80% of the Proceeds to redeem the outstanding loans.

In a bondholders' meeting planned to be held in June or July 2016, the bondholders will be requested to resolve the following proposed amendments to the terms of the Bond Agreement:

- the maturity date to be extended from 15 December 2016 to 31 December 2018; and
- decrease the interest rate of the Bonds to 3.5% p.a.

KGJI has, as part of the agreement to restructure the debt, agreed to vote in favor of the amendments set out above in the upcoming bondholders' meeting.

In addition, the conversion price of the Bonds will be adjusted due to the Private Placement in accordance with the customary adjustment provisions set out in the Bond Agreement. This implies that the conversion price will be adjusted as the Private Placement Subscription Price of NOK 0.55 of the 95,970,000 New VPS Shares was lower than the prevailing quoted price on the VPS Shares on the date of the Private Placement. Funcom has discussed this matter with the Bond Trustee, and based on that discussion, the new conversion price will be USD 0.1036.

As of the date of this Prospectus, there are 62 Bonds still outstanding. The remaining 88 Bonds has been converted into VPS Shares at the following dates and at the following conversion price:

Extraordinary General Meetings shall be held as often as deemed necessary by the Supervisory Board and shall be held if one or more shareholders and other persons entitled to attend the meetings of shareholders jointly representing at least one-tenth of the issued share capital make a written request to that effect to the Managing Board or Supervisory Board, specifying in detail the business to be dealt with. If the Managing Board or Supervisory Board fail to comply with a request in such manner that the General Meeting can be held within six weeks after the request, the persons making the request may be authorized by the President of the Court (*President van de Rechtbank*) within whose jurisdiction the company is established to convene the meeting themselves.

The Company's General Meetings shall be held at its place of establishment, at Amsterdam, Haarlemmermeer (Schiphol Airport), Rotterdam, Badhoevedorp or The Hague. The notice convening a General Meeting shall be published electronically and shall be permanently and directly accessible until the General Meeting.

The notice convening the meeting shall be issued by the Managing Board, by the Supervisory Board or by those who according to the law or these articles are entitled thereto.

The notice convening a General Meeting shall contain *inter alia*:

Resolutions shall not be passed in the meeting on business other than that on the agenda.

Under Dutch company law, all shareholders in Dutch companies are entitled to attend the General Meetings, to address the General Meeting and to vote. Shareholders in Funcom (as holders of VPS Shares) are entitled to attend and vote at the General Meeting on the basis of a proxy from the VPS Registrar. Persons entitled to vote and to attend meetings are those persons who on the twenty-eighth day prior to the meeting (the day of registration) have these rights and are registered as having these rights in a registry designated by the Management Board, regardless of who owns the shares, or is holder of VPS Shares issued with the concurrence of the Company, at the time the General Meeting is held.

Shareholders and other persons entitled to attend meetings of shareholders may be represented by proxies with written authority to be shown for admittance to a meeting. The requirement of written authorization of the proxy is met if the proxy is recorded electronically. A shareholder is allowed to notify the Company of the proxy electronically. Subject to certain exceptions provided by the Dutch Civil Code and the Articles of Association (such as, for example, in case of an amendment of the Articles of Association or liquidation of the Company, which requires a two-thirds majority of votes cast), resolutions are passed by a simple majority of votes cast. Blank and invalid votes shall not be counted. In case of an equal vote, the proposal shall be deemed to have been rejected.

11.7 Shareholder rights, including voting rights

11.7.1 The rights of a holder of Shares

The Company has one class of Shares and all Shares carry the same rights. All Shares confer the right to cast one vote at the General Meetings of the Company.

11.7.2 Pre-emptive rights

In the event of an issue of new Shares, shareholders shall have a pre-emptive right in proportion to the number of Shares which they own, notwithstanding the provisions of the law (such as (i) Shares issued to employees of the Company or of a Group company and (ii) shares issued against a contribution in kind can be issued without pre-emptive rights to Existing Shareholders. In addition

preference shareholders⁷⁴ do not have a pre-emptive right unless the Articles of Association provide otherwise.

The Supervisory Board shall have the power to limit or debar the pre-emptive right accruing to shareholders, if and in so far as the Supervisory Board has also been designated by the General Meeting for this purpose as the authorized body for the period of such designation. A designation as referred to above shall only take place for a specific period of no more than the period up to and including the first ordinary General Meeting which is held after three full calendar years have elapsed since said designation and may not be extended by more than the aforementioned period on each occasion.

11.7.3 Conversion provisions

There are no provisions in the Articles of Association which are more stringent than Dutch law in view of the amendment of rights of holders of shares. A change in the rights of holders of Shares will require an amendment of the Articles of Association of the Company. A resolution to amend the Articles of Association by which the rights conferred on holders of shares of a specific class as such are changed shall require the approval of the relevant class meeting with a two-thirds majority of the votes cast.

11.7.4 Rights attaching to the VPS Shares

The VPS Shares rank *pari passu* in all respects with each other in relation to the Company Shares, including voting rights, entitlements to dividends, liquidation proceeds, subscription or pre-emptive rights in the event of a share issue and pre-emptive rights in the event of the issuance of equity-linked securities. The Management Board of the Company shall make notes of the resolutions passed during the General Meeting. In respect of each resolution the Company shall note:

- (i) the number of shares in respect of which valid votes are cast;
- (ii) the percentage of issued capital represented by the number of shares referred to under (i);
- (iii) the total number of votes validly cast; and
- (iv) the number of votes cast for and against the resolution and the number of abstentions.

Each year the Management Board shall cause annual accounts to be drawn up, consisting of a balance sheet as at the close of the preceding financial year and a profit and loss account in respect of the preceding financial year with the explanatory notes thereto. The Management Board shall be bound to draw up the aforesaid annual accounts in accordance with established principles of business management.

11.13.3 The Supervisory Board

The Supervisory Board shall be responsible for supervising the policy pursued by the Management Board and the general course of affairs of the Company and the business enterprise which it operates. The Supervisory Board shall assist the Management Board with advice relating to the general policy aspects connected with the activities of the Company. In fulfilling their duties, the supervisory directors shall serve the interests of the Company and the business enterprise which it operates.

The Management Board shall provide the Supervisory Board in good time with all relevant information as well as the information the Supervisory Board requests, in connection with the exercise of its duties. At least once per year the Management Board shall inform the Supervisory Board in writing of the main features of the strategic policy, the general and financial risks and the management and control systems of the Company. The Management Board shall then submit to the Supervisory Board for approval:

- (i) the operational and financial objectives of the Company;
- (ii) the strategy designed to achieve the objectives; and
- (iii) the parameters to be applied in relation to the strategy, *inter alia*, regarding financial ratios.

The Supervisory Board shall consist of one or more members, to be appointed by the General Meeting on proposal of the General Meeting. The number of supervisory directors shall be determined by the General Meeting.

A proposal to make one or more appointments to the Supervisory Board may be placed on the agenda of the General Meeting by the Supervisory Board. The General Meeting shall appoint a Chairman and a Vice-Chairman of the Supervisory Board.

The Supervisory Board may appoint one or more of its members as delegate supervisory director in charge of supervising the Management Board on a regular basis. They shall report their findings to the Supervisory Board. The offices of Chairman of the Supervisory Board and delegate supervisory director are compatible. The Supervisory Board may adopt rules regulating the division of its duties among its various supervisory directors. The Supervisory Board may decide that one or more of its members shall have access to all premises of the Company and shall be authorized to examine all books, correspondence and other records and to be fully informed of all actions which have taken place, or may decide that one or more of its supervisory directors shall be authorized to exercise a portion of such powers.

At the expense of the Company, the Supervisory Board may obtain such advice from experts as the Supervisory Board deems desirable for the proper fulfillment of its duties.

A supervisory director is appointed for the period up to and including the first ordinary General Meeting which is held after two full calendar years have elapsed since the day as per which he was appointed. A retired supervisory director may immediately be re-elected. The Supervisory Board may establish a rotation scheme.

The supervisory directors may be suspended or dismissed by the General Meeting. The Supervisory Board may make a proposal to the General Meeting for the suspension or dismissal of one or more of its supervisory directors.

The Supervisory Board may pass resolutions by simple majority of the votes of the members in office. Each supervisory director has the right to cast one vote. In case of a tie the vote of Chairman shall decide. In case of absence a supervisory director may issue a proxy, however, only to another supervisory director. A supervisory director may not take part in deliberations and the adopting of resolutions if he has a direct or indirect personal interest in them which conflicts with the interests of the Company and its business. If a resolution cannot be adopted as a result, the resolution must be adopted by the General Meeting. The Supervisory Board may pass resolutions in writing without holding a meeting provided that the proposals for such resolutions have been communicated in writing to all supervisory directors and no supervisory director is opposed to this method of passing a resolution. The managing directors shall attend meetings of the Supervisory Board at the latter's request. Meetings of the Supervisory Board shall be convened by the Chairman of the Supervisory Board, either on request of two or more supervisory directors or on request of the Management Board, or by the supervisory directors requesting the meeting to be held.

The Supervisory Board shall draw up standing orders regulating inter alia the manner of convening board meetings and the internal procedure at such meetings. These meetings may be held by telephone as well as by video or by equivalent means or communications. If one or more supervisory directors are absent or unable to act, the remaining supervisory director or Supervisory Directors will be charged temporarily with the supervision of the Company. If all the supervisory directors are

absent or unable to act, a person to be appointed by the General Meeting for an indefinite period for this purpose will be charged temporarily with the supervision of the Company.

The General Meeting determines the compensation to the members of the Supervisory Board or to one or more of its members. The Supervisory Board members shall be reimbursed for their expenses.

General Meetings shall be presided over by the Chairman of the Supervisory Board or in his absence by the Vice-Chairman of the Supervisory Board.

The Supervisory Board shall cause the annual accounts to be examined by one or more registered accountant(s) designated for the purposes by the General Meeting or other experts designated for the purpose in accordance with section 393 of the Dutch Civil Code Book 2 (*Burgerlijk Wetboek Boek 2*), and shall report to the General Meeting on the annual accounts, notwithstanding the provisions of the law.

11.14 Freely transferable Shares

The Shares are freely transferable. The Company's Articles of Association do not contain any provisions imposing limitations on the ownership of the Shares and there are no limitations under Norwegian law on the rights of non-residents or foreign owners to hold or vote for the Shares.

11.15 Provisions preventing change of control

There are no provisions that prevent a change of control in Funcom.

11.16 Corporate governance

11.16.1 Funcom's corporate governance policy

Funcom aspires to generate value for its owners through profitable and sustainable business practices. Good corporate governance and management will ensure the greatest possible value creation at the same time as Group resources will be used in an efficient and sustainable manner. The added value will benefit shareholders, employees and the gaming community. Funcom is listed on Oslo Børs and is subject to Norwegian securities legislation and stock exchange regulations as well as Dutch legislation.

Funcom's key principles of corporate governance have been based upon the Dutch Corporate Governance Code (*De Nederlandse Corporate Governance Code*), that can be found on www.commissiecorporategovernance.nl and the Norwegian Code of Practice for Corporate Governance (*Eierstyring og Selskapsledelse*), that can be found on www.nues.no. Oslo Børs requires listed companies to publish an annual statement listing all corporate governance recommendations and presenting compliance with the recommendations or explaining why the Company has chosen an alternative approach to the specific recommendation.

For the Dutch Corporate Governance Code, Funcom will present the best practice clauses where it does not comply and explain the rationale for this.

This form of corporate governance, which separates the powers of management from those of supervision, is considered to offer the most balanced framework governing the exercise of power.

The Supervisory Board oversees the efficient operation of the Company and reports to the shareholders. Appointment of the managing directors is done by the General Meeting further to a proposal from the Supervisory Board. The Supervisory Board appoints one of the managing directors as Chairman of the Management Board.

11.16.2 Departures from the Norwegian Code of Practice for Corporate Governance

The Company follows the Norwegian Code of Practice for Corporate Governance (the "**Norwegian Corporate Governance Code**"). The Company has the following departures from the Norwegian Corporate Governance Code.

For further information on the Company's compliance with the Norwegian Corporate Governance Code, please refer to the annual reports of the Company.

- The Company has drawn up its own Corporate Code of Ethics⁸⁰ and Value Platform⁸¹. Compliance with and the follow up of the Code of Ethics have been subject to internal processes. The Company has not yet established separate guidelines for corporate social responsibility as implemented in the code of practice in October 2014, but considers the ethical guidelines to cover most of the relevant topics. The Company will consider developing separate guidelines for corporate social responsibility.
- The representatives of neither the Supervisory Board nor the auditor are generally present at AGM's as this is not customary for Dutch Companies. The auditor is always on standby to attend the AGM depending on shareholder attendance.
- According to the Articles of Association, annual General Meetings in Funcom are to be chaired by the Chairman of the Supervisory Board or the Vice-Chairman of the Supervisory Board. This is a departure from the recommendation for independent chairing of meetings and will be re-evaluated in the future.
- The Company does not have a Nomination Committee, as such a committee is not deemed to be relevant given the Company's current size. However, the Company will continue to re-evaluate this policy according to its development in the future. The Supervisory Board shall carry out the duties of proposing the candidates for election to the Supervisory Board and to the corporate assembly (to the extent this exists) and the fees to be paid to members of these bodies. The Supervisory Board shall justify such recommendations.
- The Company will from time to time consider granting options to members of its Supervisory Board, see further Section 11.5.2 "Options". The Company has not set an absolute limit for its performance-related remuneration under the applicable option agreements. The Company views options as an important tool for remuneration of Supervisory Board Members, *e.g.*, to be able to have a board composition that reflects the global nature of its business.
- The allocation of options to executive personnel is determined on a case by case basis and is not made specifically dependent on the realization of certain targets that are determined in advance. This practice promotes an extremely dynamic business, in terms of both products

and management responsibilities, which is appropriate for the fast changing nature of the business environment.

11.16.3 Departures from the Dutch Corporate Governance Code:

Funcom's adopted code and practices are in compliance with the Dutch Corporate Governance code, with the exception of:

- (i) **Provision II.2.4:** The options become exercisable before the lapse of the three-year time period set out in the Dutch Corporate Governance Code. Funcom has an option program for the members of the Management Board where one third of the options vest each year during three years following the grant date. The options are in principle only vested if the member of the Management Board is still employed with Funcom on the date that the options vest. The allocation of options to members of the Management Board is not made specifically dependent on the realization of certain targets that are determined in advance. The allocation of options to the members of the Management Board – as part of their remuneration – is subject to the approval of the General Meeting.
- (ii) **Provision II.2.6:** The exercise price for all options is the average volume weighted price on Oslo Børs on the five trading days preceding and the five trading days following the date when the options are granted.
- (iii) **Provision II.2.10:** The allocation of options to members of the Management Board is not made specifically dependent on the realization of certain targets that are determined in advance. The Supervisory Board in principle does not have the right to make adjustments to the value of the options granted to members of the Management Board.
- (iv) **Provision II.2.11:** The Supervisory Board in principle does not have the right to cancel the options, or other variable components of the remuneration of the members of the Management Board.
- (v) **Provision II.2.12, 2.13 and 2.15:** A remuneration report is not made public on the website of Funcom. The Supervisory Board is of the opinion that the information suggested to be included can be obtained in general terms from the annual report.
- (vi) **Provision II.2.14:** Funcom has in the past not published details of the contracts concluded with the members of the Management Board. The Supervisory Board is of the opinion that most of the information contained in such contracts can be obtained in general terms from the annual report.
- (vii) **Provision III.3.6:** Funcom has not developed a retirement schedule and made it generally available, as this could be viewed as a signal of major shifts in ownership relating to key shareholders in Funcom.
- (viii) **Provision III.5.14:** Funcom has decided not to establish a Selection & Appointment Committee. The Supervisory Board has taken these tasks upon itself.
- (ix) **Provision III.7.1:** Funcom has reserved the right to grant options to members of the Supervisory Board. Funcom views options as an important tool for remuneration of the members of the Supervisory Board, *e.g.*, to enable a board composition, which reflects the global nature of its business.
- (x) **Provision IV.3.10:** The voting results of the general meeting are communicated on the

website of Oslo Børs and on the website of Funcom on the day of the general meeting. The minutes of a general meeting are posted on the website of Funcom shortly thereafter. Votes at general meetings are in principle cast through proxy holders based on voting instructions from the VPS Registrar and the outcome of voting is limited to those clear voting instructions. As a result hereof shareholders are not provided a period for commenting on draft minutes.

- (xi) **Provision IV.3.13:** Funcom will continue to evaluate the need for a policy on bilateral contracts with the shareholders.
- (xii) **Provision V.2.1:** The auditor is always on standby to attend the Annual General Meeting depending on shareholder attendance.
- (xiii) **Provision V.3:** Funcom has not assigned a specific internal auditor.

11.17 Redemption or reduction of share capital

Subject to the provisions of Dutch law and the Articles of Association, the General Meeting may resolve to reduce the Company's issued share capital by: (i) cancelling Company Shares (ii) cancelling with repayment all Company Shares or (iii) reducing the nominal value of the Company Shares, to be effected by an amendment of the Articles of Association. The General Meeting can only adopt a resolution to reduce the issued capital upon a proposal by the Management Board which has been approved by the Supervisory Board. A reduction of the nominal value of the Company Shares, whether without redemption or against partial repayment on the Company Shares or upon release from the obligation to pay up Company Shares, must be made pro rata on all Company Shares of that particular class. This pro rata requirement may be waived if all shareholders concerned agree to this waiver. In addition, a resolution to reduce the share capital shall require the prior or simultaneous approval of each group of holders of a similar class (if any) whose rights are prejudiced.

A resolution of the General Meeting to reduce the issued share capital requires a majority of at least two-thirds of the votes cast, if less than half of the issued and outstanding share capital is present or represented at the General Meeting. A resolution to reduce the issued share capital shall not take effect as long as creditors have legal recourse against the resolution.

11.18 Liquidation

A resolution to wind up the Company shall be valid only provided that:

- (i) the proposal to such a resolution has been proposed to the General Meeting by the Supervisory Board;
- (ii) the full proposals have been deposited for inspection by shareholders and other persons entitled to attend the General Meeting, at the office of the Company as from the day on which the notice is served until the close of that meeting;
- (iii) the proposal to such a resolution has been approved by a majority of at least two-thirds of the votes cast in a meeting.

If the Company is wound up, the liquidation shall be carried out by the Management Board or any person designated for that purpose by the General Meeting, under the supervision of the Supervisory Board. In passing a resolution to wind up the Company, the General Meeting shall upon

the proposal of the Supervisory Board set the remuneration payable to the liquidators and to those responsible for supervising the liquidation.

The liquidation shall take place with due observance of the provisions of the law. After the liquidation has ended, the books and records of the Company shall remain in the custody of the person designated for that purpose by the liquidators during a seven-year period.

What is left of the Company's assets after all creditors have been satisfied shall be divided amongst the shareholders pro rata to their respective holdings of shares. The person entitled to a liquidation-distribution on registered shares shall be the person in whose name the share is registered at the date of liquidation-distribution.

12 SECURITIES TRADING IN NORWAY AND CERTAIN ASPECTS OF DUTCH LAW

12.1 Introduction

Oslo Børs was established in 1819 and is the principal market in which shares, bonds and other financial instruments are traded in Norway. Oslo Børs has entered into a strategic cooperation with the London Stock Exchange Group with regards to, inter alia, trading systems for equities, fixed income and derivatives. Oslo Børs VPS Holding ASA owns and operates the two regulated markets for equities in Norway; Oslo Børs and Oslo Axess. In addition, Oslo Børs has recently opened a multilateral trading facility named Merkur Market.

12.2 Trading of equities and settlement

Trading of equities on Oslo Børs is carried out in the electronic trading system Millennium Exchange. This trading system is in use by all markets operated by the London Stock Exchange as well as by the Borsa Italiana and the Johannesburg Stock Exchange.

Official trading on Oslo Børs takes place between 09:00 hours (CET) and 16:20 hours (CET) each trading day, with pre-trade session between 08:15 hours (CET) and 09:00 hours (CET), a closing auction from 16:20 hours (CET) to 16:25 hours (CET) and a post-trade period from 16:25 hours (CET) to 17:30 hours (CET).

The settlement period for trading on Oslo Børs is currently two trading days (T+2).

Six X-Clear AG has a license from the NFSA to act as a central clearing service and offers clearing and counterparty services for equity trading on Oslo Børs.

Investment services in Norway may only be provided by Norwegian brokerage houses holding a license under the Norwegian Securities Trading Act, branches of brokerage houses from an EEA member state or brokerage houses from outside the EEA that have been licensed to operate in Norway. Brokerage houses in an EEA member state may also provide cross-border investment services in Norway.

It is possible for brokerage houses to undertake market-making activities in shares listed in Norway if they have a license to this effect under the Norwegian Securities Trading Act, or in the case of brokerage houses in an EEA member state, a license to carry out market-making activities in their home jurisdiction. Such market-making activities will be governed by the regulations of the Norwegian Securities Trading Act relating to brokers' trading for their own account. However, such market-making activities do not as such require notification to the NFSA or Oslo Børs except for the general obligation on brokerage houses that are members of Oslo Børs to report all trades in stock exchange listed securities.

12.3 Information, control and surveillance

Under Norwegian law, Oslo Børs is required to perform a number of surveillance and control functions. The Surveillance and Corporate Control unit of Oslo Børs monitors all market activity on a continuous basis. Market surveillance systems are largely automated, promptly warning department personnel of abnormal market developments.

Under Norwegian law, a company which is listed, or has applied for listing, on a Norwegian regulated market, must promptly release any inside information (*i.e.* precise information about financial instruments, the issuer thereof or other matters which are likely to have a significant effect on the price of the relevant financial instruments or related financial instruments, and which are not publicly available or commonly known in the market). A company may, however, delay the release of such information in order not to prejudice its legitimate interests, provided that it is able to ensure the confidentiality of the information and that the delayed release would not be likely to mislead the public. Oslo Børs may levy fines on companies violating these requirements.

12.4 The VPS and transfer of VPS Shares – Beneficial interests in the Company Shares

The VPS is the Norwegian paperless centralized securities register. It is a computerized bookkeeping system in which the ownership of, and all transactions relating to, Norwegian listed shares must be recorded. VPS and Oslo Børs are both wholly owned by Oslo Børs VPS Holding ASA.

All transactions relating to securities registered with the VPS are made through computerized book entries. No physical share certificates are, or may be, issued. The VPS confirms each entry by sending a transcript to the registered shareholder irrespective of any beneficial ownership. To give effect to such entries, the individual shareholder must establish a share account with a Norwegian account agent. Norwegian banks, Norges Bank (Norway's central bank), authorized securities brokers in Norway and Norwegian branches of credit institutions established within the EEA, or credit institutions established within the EEA operating cross-border into Norway are allowed to act as account agents.

The VPS Shares in Funcom that are listed on Oslo Børs are registered in the name of the VPS Registrar and the VPS Registrar registers beneficial interests in the Company Shares in the VPS (*Nw: depotbevis*) as VPS Shares.

In order to enable registration of the beneficial interests of the Company Shares in the VPS, the Company Shares registered in the VPS are recorded in the name of the VPS Registrar in the Company's shareholders' register. Although the VPS Registrar will hold the Company Shares in the Company's shareholders' register it will only do so as the legal owner for the beneficial holders.

The VPS Registrar will, in its capacity as registrar, operate the Company's register in the VPS which will record the beneficial owners of the Company Shares.

The technical settlement of any trading of the VPS Shares registered in the VPS will be carried out by transfer of such VPS Shares in the VPS Register. Each VPS Share will represent the beneficial ownership of one Company Share in Funcom in Funcom's Dutch shareholders' register. These arrangements are set out in the VPS Registrar Agreement, which is attached as [Appendix 2](#) to this Prospectus. The address of DNB Bank ASA, which acts as the VPS Registrar, is: DNB Bank ASA, Verdipapirservice, Dronning Eufemias gate 30, P.O. Box 1600 Sentrum, 0021 Oslo, Norway. DNB Bank ASA was incorporated in Norway on 10 September 2002 with registered number 984 851 006 as a public limited liability company under the Norwegian Public Limited Liability Companies Act and is domiciled in Norway.

The VPS Registrar will be regarded as the legal owner of the ordinary shares in Funcom registered in the VPS. In accordance with market practice in Norway and system requirements of the VPS, the

investors will be registered in the VPS as beneficial owners of the Company Shares and the instruments traded will be referred to as shares in Funcom.

A shareholder may at any time require (at the shareholder's own cost) the VPS Registrar to register such shareholders' ownership of the underlying Company Shares (as evident from the VPS Shares) in the Dutch shareholders' register. After the registration of the ownership in the Dutch share register, the relevant VPS Shares will cease to be registered with the VPS.

When the VPS Registrar receives any notice, report, accounts, financial statements, circular or other similar document relating to our affairs, including notice of a shareholders meeting, the VPS Registrar will, upon request from the Company, ensure that a copy of such document is promptly sent to the investors registered as owners in the VPS, along with any proxy form or other relevant materials.

As a matter of Norwegian law, the entry of a transaction in the VPS is prima facie evidence in determining the legal rights of parties as against the issuing company or any third party claiming an interest in the given security. A transferee or assignee of shares may not exercise the rights of a shareholder with respect to such shares unless such transferee or assignee has registered such shareholding or has reported and shown evidence of such share acquisition, and the acquisition is not prevented by law, the relevant company's articles of association or otherwise.

The VPS is liable for any loss suffered as a result of faulty registration or an amendment to, or deletion of, rights in respect of registered securities unless the error is caused by matters outside the VPS's control which the VPS could not reasonably be expected to avoid or overcome the consequences of. Damages payable by the VPS may, however, be reduced in the event of contributory negligence by the aggrieved party.

The VPS must provide information to the Norwegian Financial Supervisory Authority (the "NFSA") on an ongoing basis, as well as any information that the NFSA requests. Further, Norwegian tax authorities may require certain information from the VPS regarding any individual's holdings of securities, including information about dividends and interest payments.

12.5 Shareholders' register

The Company Shares are in the form of an entry in the shareholders' register without issue of a share certificate. Except to the extent the Shareholders have not or will not offer their Shares to the VPS Registrar, the Company Shares are held by the VPS Registrar. The VPS Shares in Funcom that are listed on Oslo Børs are registered in the name of the VPS Registrar and the VPS Registrar registers beneficial interests in the Company Shares in the VPS (Nw: *depotbevis*) as VPS Shares.

The names and addresses of holders of Company Shares are entered in a shareholders' register maintained and kept by or on behalf of the Company. The shareholders' register will include all such further information as the Management Board deems necessary or as is required by Dutch law. At the request of a shareholder, a usufructuary or a pledgee, the Company is required to provide, free of charge, a statement including the information contained in the shareholders' register with respect to such person's rights to the Company Shares.

Part(s) of the shareholders' register may be kept outside the Netherlands if necessary to meet requirements by foreign law or a foreign exchange.

12.6 Disclosure obligations

Shareholders may be subject to notification obligations under the Dutch Financial Supervision Act. Shareholders are advised to seek professional advice on these obligations.

Shareholders

Pursuant to the Dutch Financial Supervision Act, any person who, directly or indirectly, acquires or disposes of an actual or potential interest in the capital or voting rights of the Company must immediately notify the AFM by means of a standard form, if, as a result of such acquisition or disposal, the percentage of capital interest or voting rights held by such person in the Company reaches, exceeds or falls below any of the following thresholds: 3%, 5%, 10%, 15%, 20%, 25%, 30%, 40%, 50%, 60%, 75% and 95%.

A notification requirement also applies if a person's capital interest or voting rights reaches, exceeds or falls below the abovementioned thresholds as a result of a change in the Company's total outstanding share capital or voting rights. Such notification has to be made no later than the fourth trading day after the AFM has published the Company's notification of the change in its outstanding share capital.

The Company is required to notify the AFM immediately of the changes to its total share capital or voting rights, if its issued share capital or voting rights changes by 1% or more since the Company's previous notification. The Company must furthermore notify the AFM within eight days after each quarter, in the event its share capital or voting rights changed by less than 1% in that relevant quarter since the Company's previous notification.

In addition, every holder of 3% or more of the Company's share capital or voting rights who, in relation to its previous notification, reaches, exceeds or falls below any of the abovementioned thresholds as a consequence of a different composition by means of an exchange or conversion into shares or the exercise of rights pursuant to an agreement to acquire voting rights, shall notify the AFM at the latest within four trading days.

Controlled entities, within the meaning of the Dutch Financial Supervision Act, do not have notification obligations under the Dutch Financial Supervision Act, as their direct and indirect interests are attributed to their (ultimate) parent. Any person may qualify as a parent for purposes of the Dutch Financial Supervision Act, including an individual. A person who has a 3% or larger interest in the Company's share capital or voting rights and who ceases to be a controlled entity for these purposes must immediately notify the AFM. As of that moment, all notification obligations under the Dutch Financial Supervision Act will become applicable to the former controlled entity.

For the purpose of calculating the percentage of capital interest or voting rights, the following interests must, *inter alia*, be taken into account: (i) shares and voting rights directly held (or acquired or disposed of) by any person; (ii) shares and voting rights held (or acquired or disposed of) by such person's controlled entity or by a third party for such person's account or by a third party with whom such person has concluded an oral or written voting agreement; (iii) voting rights acquired pursuant to an agreement providing for a temporary transfer of voting rights against a payment; (iv) shares which such person (directly or indirectly) or third party referred to above, may acquire pursuant to any option or other right to acquire shares; (v) shares which determine the value of certain cash settled financial instruments such as contracts for difference and total return swaps; (vi) shares that must be acquired upon exercise of a put option by a counterparty; and (vii) shares which are the subject of another contract creating an economic position similar to a direct or indirect

holding in those shares. Special attribution rules apply to shares and voting rights which are part of the property of a partnership or other community of property. A holder of a pledge or right of usufruct in respect of shares can also be subject to the reporting obligations, if such person has, or can acquire, the right to vote on the shares. The acquisition of (conditional) voting rights by a pledgee or beneficial owner may also trigger the reporting obligations as if the pledgee or beneficial owner were the legal holder of the shares.

For the purpose of the notification obligation, the following instruments qualify as "shares": (i) shares; (ii) depositary receipts for shares (or negotiable instruments similar to such receipts); (iii) negotiable instruments for acquiring the instruments under (i) or (ii) (such as convertible bonds); and (iv) options for acquiring the instruments under (i) or (ii).

Gross short positions in shares must also be notified to the AFM. For these gross short positions, the same thresholds apply as for notifying an actual or potential interest in the capital and/or voting rights of a listed company, as referred to above, and without any set-off against long positions.

In addition, pursuant to Regulation (EU) No 236/2012, each person holding a net short position attaining 0.2% of the issued share capital of the Company is required to notify such position to the AFM. Each subsequent increase of this position by 0.1% above 0.2% must also be notified. Each net short position equal to 0.5% of the issued share capital of the Company and any subsequent increase of that position by 0.1% will be made public via the AFM short selling registers. To calculate whether a natural person or legal person has a net short position, their short positions and long positions must be set-off. A short transaction in a Share can only be contracted if a reasonable case can be made that the Shares sold can actually be delivered, which requires confirmation of a third party that the Shares have been located.

Notification requirements of managing directors, supervisory directors and any other person who would have managerial or co-managerial responsibilities

Each Managing Director and Supervisory Director must notify the AFM: (a) immediately following the admission to trading and (de-)listing of the Shares of the number of Shares he/she holds and the number of votes he/she is entitled to cast in respect of the Company's issued share capital, and (b) subsequently of each change in the number of Shares he/she holds and of each change in the number of votes he/she is entitled to cast in respect of the Company's issued share capital, immediately after the relevant change.

Pursuant to the Dutch Financial Supervision Act, any Managing Director and Supervisory Director, as well as any other person who would have managerial or co-managerial responsibilities in respect of the Company or who would have the authority to make decisions affecting the Company's future developments and business prospects regularly having access to inside information relating, directly or indirectly, to the Company, must notify the AFM by means of a standard form of any transactions conducted in the Netherlands for his or her own account relating to the Shares or in financial instruments the value of which is also based on the value of the Shares.

In addition, in accordance with the Dutch Financial Supervision Act and the regulations promulgated thereunder (*e.g.*, the Dutch Financial Supervision Act Decree on Market Abuse (*Besluit Marktmissbruik Wft*)), certain persons who are closely associated with Managing Directors, Supervisory Directors or any of the other persons as described above, are required to notify the AFM of any transactions conducted in the Netherlands for their own account relating to the Shares or in financial instruments the value of which is also based on the value of the Shares. The Dutch Financial Supervision Act and the regulations promulgated thereunder cover, *inter alia*, the following categories of persons: (i) the spouse or any partner considered by national law as equivalent to the

spouse; (ii) dependent children; (iii) other relatives who have shared the same household for at least one year at the relevant transaction date; and (iv) any legal person, trust or partnership whose, among other things, managerial responsibilities are discharged by a person referred to under (i) to (iii) above or by the relevant Managing Director, the Supervisory Director or other person with any authority in respect of the Company as described above.

The AFM must be notified of transactions effected in either the VPS Shares or financial instruments, the value of which is (in part) determined by the value of the VPS Shares, no later than the fifth business day following the transaction date by means of a standard form or by using the digital portal made available by the AFM. Notification may be postponed until the date the value of the transactions carried out on that person's own account, together with the transactions carried out by the persons associated with that person, reaches or exceeds the amount of EUR 5,000 in the calendar year in question.

If a Managing Director or Supervisory Director has notified a transaction to the AFM under the Dutch Financial Supervision Act as described above under the paragraph "Shareholders", such notification is sufficient for purposes of the Dutch Financial Supervision Act as described in this paragraph.

Non-compliance

Non-compliance with the notification obligations under the Dutch Financial Supervision Act could lead to criminal fines, administrative fines, imprisonment or other sanctions. In addition, non-compliance with some of the notification obligations under the Dutch Financial Supervision Act may lead to civil sanctions, including suspension of the voting rights relating to the Company Shares held by the offender for a period of not more than three years, voiding of a resolution adopted by the General Meeting in certain circumstances and ordering the person violating the disclosure obligations to refrain, during a period of up to five years, from acquiring Shares and/or voting rights in Shares.

Public registry

The AFM does not issue separate public announcements of these notifications. It does, however, keep a public register of all notifications under the Dutch Financial Supervision Act on its website (www.afm.nl). Third parties can request to be notified automatically by e-mail of changes to the public register in relation to a particular company's shares or a particular notifying party. In addition, notifications of significant shareholdings shall be published by the Company through the Oslo Børs' news system, www.newsweb.no.

Dutch Financial Reporting Supervision Act

Pursuant to the Dutch Financial Reporting Supervision Act (*Wet toezicht financiële verslaggeving*) (the "**FRSA**") the AFM supervises the application of financial reporting standards of , among others, companies whose corporate seats are in the Netherlands and whose securities are listed on a regulated Dutch or foreign stock exchange. The FRSA stipulates that the AFM has an independent right to (i) request an explanation from the Company regarding its application of the applicable financial reporting standards if, based on publicly known facts or circumstances, it has reason to doubt that the Company's financial reporting meets such standards and (ii) recommend the Company to make available further explanations. The AFM may, if such a Company does not comply with the AFM's request or recommendation, request that the enterprise chamber of the court of appeal in Amsterdam (*Ondernemingskamer van het Gerechtshof te Amsterdam*) (the "**Enterprise Chamber**") issue an order to the Company to (i) provide an explanation of the way it has applies the applicable financial reporting standards to its financial reports or (ii) prepare its financial reports in accordance with the Enterprise Chamber's instructions.

12.7 Insider trading

Dutch law contains specific rules intended to prevent insider trading and market manipulation. The DFSA provides for specific rules intended to prevent market abuse, such as the prohibitions on insider trading, divulging inside information and tipping off, and market manipulation. The person who is in possession of inside information will be subject to the Dutch insider trading prohibition, the Dutch prohibition on divulging insider information and tipping off and the Dutch prohibition on market manipulation. The Dutch prohibition on market manipulation may mean that certain restrictions apply to the ability of the Company to buy back shares. In certain circumstances, the Company's investors may also be subject to the Dutch market abuse rules.

The Company does not qualify as an issuer (*uitgevende instelling*) within the meaning of Section 5.25i of the DFSA, therefore the insider information disclosure obligations do not apply to the Company. However, the Company is subject to insider information disclosure obligations pursuant to Norwegian law.

According to Norwegian law, subscription for, purchase, sale or exchange of financial instruments that are listed, or subject to the application for listing, on a Norwegian regulated market, or incitement to such dispositions, must not be undertaken by anyone who has inside information, as defined in the Norwegian Securities Trading Act section 3-2. The same applies to the entry into, purchase, sale or exchange of options or futures/forward contracts or equivalent rights whose value is connected to such financial instruments or incitement to such dispositions.

12.8 Mandatory takeover offers

The Company is partly subject to the mandatory take-over provisions as set out in the Norwegian Securities Trading act chapter 6, and partly to the provisions set out in the Dutch Act on Financial Supervision.

Pursuant to the Dutch Financial Supervision Act, the obligation to make a public takeover bid for all issued and outstanding shares or depositary receipts for shares in the share capital of the Company arises when a party, by itself or together with parties with whom it is acting in concert, directly or indirectly acquires 'predominant control' in the Company. 'Predominant control' is defined as being able to cast, alone or acting in concert, at least 30% of the votes at the general meeting of such listed company.

Under the Dutch Financial Supervision Act, "*persons with whom a party is acting in concert*" has been defined as natural persons, legal persons or companies collaborating under a contract with the aim to acquire predominant control in the listed company or, if the target company is one of the collaborators, to frustrate the success of an announced public takeover bid for that company. The following categories of natural persons, legal persons or companies are deemed in any case to act in concert: (i) legal persons or companies which together form part of a group as referred to in Section 24b of the Dutch Civil Code Book 2 (*Burgerlijk Wetboek Boek 2*); and (ii) natural persons, legal persons or companies and the undertakings controlled by these persons or companies.

No obligation to launch a public takeover bid exists if an exemption applies, including if a party has decreased its shareholding to below 30% within a period of 30 days, unless the loss of predominant control is the result of a transfer of shares to a natural person, legal person or company that may

invoke an exemption from the requirement to make a public takeover bid or if the controlling party has made use of its voting rights during that period.

Questions concerning consolidation of shareholdings in relation to the threshold at which the mandatory bid regulation are triggered are subject to Dutch law. The rules under the DFSA Act regarding mandatory public offers apply to the Company because it has its corporate seat in the Netherlands. However as the Company Shares (as VPS Shares) are admitted to Oslo Børs the Dutch Decree on public offers (*Besluit openbare biedingen Wft*) will only apply in relation to matters to information to be provided to employees and labor unions and company law matters, such as a position statement of the Company and the convocation of a General Meeting.

The bidding process, including questions concerning the compensation offered in connection with the bid, in particular the bid price, the bid procedure, information on the bidder's decision to present a bid, the content of the offer document and the publication of the bid, is subject to Norwegian law, *i.e.* the Securities Trading Act. The takeover supervisory authority with respect to these issues is the Financial Supervisory Authority of Norway, or Oslo Børs.

Where an agreement on acquisition of shares triggers the bid obligation, the shareholder shall without delay notify the takeover supervisory authority and the Company accordingly. The notification shall state whether a bid will be made to buy the remaining shares in the Company. The takeover supervisory authority shall make the notification available to the public.

The bid shall be made without undue delay and at the latest four weeks after the mandatory bid obligation was triggered, and shall encompass all the remaining Shares of the Company. The bid price must be at least as high as the highest price paid or agreed to be paid by the offeror in the six-month period prior to the date the above threshold was exceeded, but equal to the market price if the market price was clearly higher when the threshold was exceeded. In the event that the acquirer thereafter, but prior to the expiration of the bid period acquires, or agrees to acquire, additional shares at a higher price, the acquirer is obliged to restate its bid at that higher price. The bid shall state a time limit for shareholders to accept the bid, not to be shorter than four weeks or longer than six weeks.

The offeror is required to make an offer document complying with Norwegian law, and such document require approval by the takeover supervisory authority (being Oslo Børs) before the bid is made public. In the mandatory bid, all Shares of the Company must be treated equally. The mandatory bid must be made in cash or contain a cash alternative at least equal in value to any non-cash offer. A shareholder who fails to make the required offer must within four weeks dispose of sufficient shares so that the obligation ceases to apply. Otherwise, the authorities may cause the shares exceeding the threshold to be sold. Until the mandatory bid is made the shareholder may, under Norwegian law, not vote for shares exceeding the threshold, unless a majority of the remaining shareholders approve. The shareholder can, however, exercise the right to dividends and pre-emption rights in the event of a share capital increase. The authorities may impose a daily fine upon a shareholder who fails to make the required offer.

12.9 Squeeze-out proceedings

The squeeze-out rules are subject to Dutch corporate legislation.

Pursuant to Section 92a of the Dutch Civil Code Book 2 (*Burgerlijk Wetboek Boek 2*), a shareholder who for his or her own account contributes at least 95% of a Dutch company's issued share capital may institute proceedings against such company's minority shareholders jointly for the transfer of their shares to him or her. The proceedings are held before the Enterprise Chamber and can be instituted by means of a writ of summons served upon each of the minority shareholders in accordance with the provisions of the Dutch Code of Civil Procedure (*Wetboek van Burgerlijke Rechtsvordering*). The Enterprise Chamber may grant the claim for squeeze-out in relation to all minority shareholders and will determine the price to be paid for the shares, if necessary after appointment of one or three experts who will offer an opinion to the Enterprise Chamber on the value to be paid for the shares of the minority shareholders. Once the order to transfer becomes final before the Enterprise Chamber, the person acquiring the shares shall give written notice of the date and place of payment and the price to the holders of the shares to be acquired whose addresses are known to him. Unless the addresses of all of them are known to him, he is required to publish the same in a daily newspaper with nationwide circulation.

The offeror under a public takeover bid is also entitled to start squeeze-out proceedings if, following the public takeover bid, the offeror contributes at least 95% of the outstanding share capital and represents at least 95% of the total voting rights. The claim of a takeover squeeze-out needs to be filed with the Enterprise Chamber within three months following the expiry of the acceptance period of the offer. The Enterprise Chamber may grant the claim for squeeze-out in relation to all minority shareholders and will determine the price to be paid for the shares, if necessary after appointment of one or three experts who will offer an opinion to the Enterprise Chamber on the value to be paid for the shares of the minority shareholders. In principle, the offer price is considered reasonable if the offer was a mandatory offer or if at least 90% of the shares to which the offer related were received by way of voluntary offer.

The Dutch takeover provisions of the Dutch Financial Supervision Act also entitle those minority shareholders that have not previously tendered their shares under an offer to transfer their shares to the offeror, provided that the offeror has acquired at least 95% of the outstanding share capital and represents at least 95% of the total voting rights. In regard to price, the same procedure as for takeover squeeze-out proceedings initiated by an offeror applies. The claim also needs to be filed with the Enterprise Chamber within three months following the expiry of the acceptance period of the offer.

12.10 Foreign exchange controls

There are currently no foreign exchange control restrictions in Norway, other than in certain extreme macroeconomic conditions, that would potentially restrict the payment of dividends to a shareholder outside Norway, and there are currently no restrictions that would affect the right of shareholders of a Dutch company who are not residents in Norway to dispose of their shares and receive the proceeds from a disposal outside Norway. There is no maximum transferable amount either to or from Norway, although transferring banks are required to submit reports on foreign currency exchange transactions into and out of Norway into a central data register maintained by the Norwegian customs and excise authorities. The Norwegian police, tax authorities, customs and excise authorities, the National Insurance Administration and the NFSA have electronic access to the data in this register.

13 TAX AND LEGAL MATTERS

13.1 Taxation of Norwegian shareholders

Set out below is a summary of certain Norwegian tax matters related to investments in the Company. The summary is based on Norwegian laws, rules and regulations applicable as of the date of this Prospectus, which may be subject to any changes in law occurring after such date. Such changes could possibly be made on a retroactive basis. The summary does not address foreign tax laws.

The summary is of a general nature and does not purport to be a comprehensive description of all the Norwegian tax considerations that may be relevant for a decision to acquire, own or dispose of shares. Shareholders who wish to clarify their own tax situation should consult with and rely upon their own tax advisors. Shareholders resident in jurisdictions other than Norway and shareholders who cease to be resident in Norway for tax purposes (due to domestic tax law or tax treaty) should consult with and rely upon their own tax advisors with respect to the tax position in their country of residence and the tax consequences related to ceasing to be resident in Norway for tax purposes.

Please note that for the purpose of the summary below, a reference to a Norwegian or foreign shareholder refers to the tax residency rather than the nationality of the shareholder.

13.1.1 Taxation of dividends

Norwegian Personal Shareholders

Dividends received by shareholders who are individuals resident in Norway for tax purposes ("**Norwegian Personal Shareholders**") are taxable as ordinary income in Norway for such shareholders at an effective tax rate of 28.75%. This effective tax rate is a result of dividends being, for the purposes of calculating taxable income, grossed up by a factor of 1.15 before the ordinary income tax rate of 25% is applied. Dividends are only taxable to the extent the dividend exceeds a tax-free allowance.

The allowance is calculated on a share-by-share basis. The allowance for each share is equal to the cost price of the share multiplied by a determined risk-free interest rate based on the effective rate after tax of interest on treasury bills (Norwegian: "**statskasseveksler**") with three months' maturity. The allowance is calculated for each calendar year, and is allocated solely to Norwegian Personal Shareholders holding shares at the expiration of the relevant calendar year. Norwegian Personal Shareholders who transfer shares will thus not be entitled to deduct any calculated allowance related to the year of transfer. Any part of the calculated allowance one year exceeding the dividend distributed on the share ("**excess allowance**") may be carried forward and set off against future dividends received on, or gains upon realization, of the same share. Any excess allowance will also be included in the basis for calculating the allowance on the same share the following years.

Norwegian Corporate Shareholders

The Shares will qualify for the Norwegian exemption method to the extent the Netherlands is not considered a low tax jurisdiction, or provided that the Netherlands is considered a low tax jurisdiction, if the Company is considered genuinely established in the Netherlands (the "substance test"). The tax consequences of Funcom meeting the conditions under the Norwegian exemption method are further described below. If the Shares do not qualify for the Norwegian exemption method, dividends and gains are taxable at 25%, while losses are deductible at the same rate.

Dividends received by shareholders who are limited liability companies (and certain similar entities) resident in Norway for tax purposes ("**Norwegian Corporate Shareholders**") are included in the calculation of the shareholders' net income from shares qualifying for participation exemption, including dividends received from the Company. Only 3% of net income from shares qualifying for participation exemption shall be included in the calculation of ordinary income. Ordinary income is subject to tax at a flat rate of 25%, implying that net income from shares is effectively taxed at a rate of 0.75%.

Capital Gains Tax on realization of Shares

Norwegian Personal Shareholders

Sale, redemption or other disposal of shares is considered a realization for Norwegian tax purposes. A capital gain or loss generated by a Norwegian Personal Shareholder through a realization of shares is taxable or tax deductible in Norway. Such capital gain or loss is included in or deducted from the shareholder's ordinary income in the year of disposal. Ordinary income is taxable at a rate of 25%. The gain is subject to tax and the loss is tax-deductible irrespective of the duration of the ownership and the number of shares disposed of.

The taxable gain/deductible loss is calculated per share, as the difference between the consideration for the share and the Norwegian Personal Shareholder's cost price of the share, including any costs incurred in relation to the acquisition or realization of the share. From a possible capital gain, Norwegian Personal Shareholders are entitled to deduct a calculated allowance, provided that such allowance has not already been used to reduce taxable dividend income. See Section 13.1.1 "Taxation of dividends" above for a description of the calculation of the allowance. The allowance may only be deducted in order to reduce a taxable gain, and cannot increase or produce a deductible loss, *i.e.* any unused allowance exceeding the capital gain upon the realization of a share will be annulled.

If the Norwegian Personal Shareholder owns shares acquired at different points in time, the shares that were acquired first will be regarded as the first to be disposed of, on a first-in, first-out basis.

Norwegian Corporate Shareholders

Capital gains derived from the realization of shares qualifying from the participation exemption method are exempted from taxation, *i.e.* capital gains on such shares will be fully exempt from Norwegian taxation. Losses incurred upon realization of such shares are not deductible.

13.1.2 Net wealth tax

The value of shares is included in the basis for the computation of wealth tax imposed on Norwegian Personal Shareholders. Currently, the marginal wealth tax rate varies from 0.0% to 0.7% of the value assessed. The value for assessment purposes for shares listed on Oslo Børs is the listed value as of 1 January in the year of assessment.

Norwegian Corporate Shareholders are not subject to wealth tax.

13.2 Taxation in the Netherlands

This section describes solely the material Dutch tax consequences of the acquisition, ownership and disposal of the Shares. This section does not consider every aspect of Dutch taxation that may be

relevant to a particular holder of Shares in special circumstances or who is subject to special treatment under applicable law. Shareholders and any potential investor should therefore consult their own tax advisors regarding the Dutch tax consequences of acquiring, owning and disposing of Shares in their particular circumstances.

Where in this section the terms "the Netherlands" and "Dutch" are used, these refer solely to the European part of the Kingdom of the Netherlands. Where in this section English terms and expressions are used to refer to Dutch concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Dutch concepts under Dutch tax law.

This section also assumes that the Company is organized, and that the business will be conducted, in the manner outlined in this Prospectus. Any change to the organizational structure or to the manner in which the Company will conduct its business may invalidate the contents of this section, which will not be updated to reflect any such change.

This section is based on the tax law of the Netherlands (whereby unpublished case law is not included) as it stands at the date of this Prospectus. The law upon which this section is based is subject to change, perhaps with retroactive effect. Any such change may invalidate the contents of this description, which will not be updated to reflect such change.

Where in this Dutch taxation discussion reference is made to "a holder of Shares", that concept includes, without limitation:

- (i) an owner of one or more Shares who in addition to the title to such Shares, has an economic interest in such Shares;*
- (ii) a person who or an entity that holds the entire economic interest in one or more Shares;*
- (iii) a person who or an entity that holds an interest in an entity, such as a partnership or a mutual fund, that is transparent for Dutch tax purposes, the assets of which comprise one or more Common Shares, within the meaning of 1. or 2. above; or*
- (iv) a person who is deemed to hold an interest in Shares, as referred to under 1. to 3., pursuant to the attribution rules of article 2.14a, of the Dutch Income Tax Act 2001 (Wet inkomstenbelasting 2001), with respect to property that has been segregated, for instance in a trust or a foundation, Company has been advised that under Dutch tax law the following treatment will apply to the Shares.*

13.2.2 Withholding tax

Dividends distributed by the Company to a holder of Shares are generally subject to withholding tax imposed by the Netherlands at a rate of 15 per cent. The Company assumes the responsibility for the withholding of withholding tax imposed by the Netherlands. Dividends distributed by the Company include, but are not limited to:

- (i) distributions of profits in cash or in kind, whatever they be named or in whatever form;*
- (ii) proceeds from the liquidation of the Company, or, as a rule, proceeds from the repurchase of its shares by the Company, in excess of the average paid-in capital*

recognized for Dutch dividend withholding tax purposes;

- (iii) the par value of Shares issued to a holder of Shares or an increase in the par value of Shares, to the extent that no contribution, recognized for Dutch dividend withholding tax purposes, has been made or will be made; and
- (iv) partial repayment of paid-in capital, that is recognized for Dutch dividend withholding tax purposes, to the extent that the Company has net profits (*zuivere winst*), unless
 - (a) the General Meeting of the Company has resolved in advance to make such repayment, and
 - (b) the par value of the shares concerned has been reduced with an equal amount by way of an amendment to the Articles of Association of the Company.

Notwithstanding the above, no withholding is required in the event of a repurchase of shares, if certain conditions are fulfilled.

If a holder of Shares is resident or deemed to be resident of the Netherlands or has opted to be treated as a resident of the Netherlands, such holder of Shares is generally entitled to a full credit against his (corporate) income tax liability and otherwise to a refund of any excess.

If a holder of Shares is resident in a country other than the Netherlands and if a treaty for avoidance of double taxation is in effect between the Netherlands and such country, such holder of Shares may, depending on the terms of such treaty, be eligible for a full or partial exemption from, or refund of, Dutch dividend withholding tax.

According to Dutch domestic anti-dividend stripping rules, no exemption from, reduction in or refund of, Dutch dividend withholding tax will be granted if the recipient of the dividend paid by the Company is not considered to be the beneficial owner (*uiteindelijk gerechtigde*) of such dividends as meant in these rules exemption from Dutch dividend withholding tax is not available if (i) a holder is resident in a country other than the Netherlands and (ii) pursuant to a provision for the prevention of fraud or abuse included in a double tax treaty between the Netherlands and such holder's country of residence, such holder would not be entitled to the reduction of tax on dividends provided for by such treaty. Furthermore, the exemption from Dutch dividend withholding tax will only be available to a holder if such holder is the beneficial owner of dividends distributed by the Company, as described above. If a holder of Shares is resident in a country other than the Netherlands and such holder is resident in a Member State of the European Union with which the Netherlands has concluded a double tax treaty that provides for a reduction of tax on dividends based on the ownership of the number of voting rights.

13.2.3 Credit

If a holder of Shares who is resident in a country other than the Netherlands is subject to Dutch income tax or Dutch corporation tax in respect of any benefits derived or deemed to be derived from such holder's Shares, including any capital gain realized on the disposal thereof, such holder can generally credit Dutch dividend withholding tax against Dutch income tax or Dutch corporation tax liability, as applicable, and such holder is generally entitled to a refund pursuant to a negative tax assessment if and to the extent the Dutch dividend withholding tax, together with any other creditable domestic and/or foreign taxes, exceeds such holder's aggregate Dutch income tax or aggregate Dutch corporation tax liability, respectively.

13.2.4 Taxes on income and capital gains

This section does not purport to describe the possible Dutch tax considerations or consequences that may be relevant to a holder of Shares who has a (fictitious) substantial interest in the Company.

Generally, a holder of Shares has a substantial interest if such holder, alone or together with his partner, has, or if certain relatives of the holder of Shares or his partner have, directly or indirectly:

- (i) the ownership of, or certain rights over, shares representing five percent or more of the total issued and outstanding capital of the Company, or of the issued and outstanding capital of any class of shares of the Company; or
- (ii) the rights to acquire shares, whether or not already issued, representing five percent or more of the total issued and outstanding capital of the Company, or of the issued and outstanding capital of any class of shares of the Company; or
- (iii) certain profit participating certificates that relate to five percent or more of the annual profit of the Company or to five percent or more of the liquidation proceeds of the Company.

Generally, a holder of Shares has a fictitious substantial interest if (a) he has disposed of, or is deemed to have disposed of, all or part of a substantial interest or (b) he is an individual and has transferred an enterprise in exchange for shares, on a non-recognition basis.

13.2.5 Residents of the Netherlands

The description of certain Dutch tax consequences in this paragraph is only intended for the following holders of Shares:

- (i) individuals who are resident or deemed to be resident in the Netherlands;
- (ii) individuals who opt to be treated as a resident in the Netherlands for purposes of Dutch taxation ((i) and (ii) jointly "**Dutch Individuals**"); and
- (iii) entities that are subject to the Dutch Corporate Income Tax Act 1969 ("**CITA**") and are resident or deemed to be resident of the Netherlands for the purposes of the CITA ("**Dutch Corporate Entities**"), excluding:
 - (a) pension funds (*pensioenfondsen*) and other entities, that are exempt from Dutch corporate income tax; and
 - (b) entities which are entitled to the participation exemption (*deelnemingsvrijstelling*) with respect to the Shares; and
 - (c) investment institutions (*beleggingsinstellingen*) as defined in article 28, CITA.

Dutch Individuals not engaged or deemed to be engaged in an enterprise or receiving benefits from miscellaneous activities

Generally, a Dutch Individual who holds Shares that are not attributable to an enterprise from which he derives profits as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise other than as an entrepreneur or a shareholder, or to miscellaneous activities (*overige werkzaamheden*), will be subject annually to an income tax imposed on a fictitious yield on such shares. The shares held by such Dutch Individual will be taxed under the regime for savings and investments (*inkomen uit sparen en beleggen*). Irrespective of the actual income or capital gains realized, the annual taxable benefit of all the assets and liabilities of a Dutch Individual that are

taxed under this regime, including the Shares, is set at a fixed amount. The fixed amount equals 4 percent of the average net fair market value of these assets and liabilities measured, in general, at the beginning and end of every calendar year. The current tax rate under the regime for savings and investments is a flat rate of 30 percent.

Dutch Individuals engaged or deemed to be engaged in an enterprise or receiving benefits from miscellaneous activities

Any benefits derived or deemed to be derived from Shares (including any capital gains realized on the disposal thereof) that are either attributable to an enterprise from which a Dutch Individual derives profits, whether as an entrepreneur or pursuant to a co-entitlement to the net worth of such enterprise (other than as an entrepreneur or a shareholder), or attributable to miscellaneous activities (*overige werkzaamheden*) are generally subject to income tax in the Dutch Individual's hands at statutory progressive rates with a maximum of 52 per cent.

Dutch Corporate Entities

Any benefits derived or deemed to be derived from Shares (including any capital gains realized on the disposal thereof) that are held by a Dutch Corporate Entity are generally subject to corporate income tax at statutory rates.

13.3 Taxation of foreign shareholders

13.3.1 Non-residents of the Netherlands

A holder of Shares other than a Dutch Individual or Dutch Corporate Entity will not be subject to any Dutch taxes on income or capital gains in respect of the ownership and disposal of the Shares, other than withholding tax as described above, except if:

- (i) the holder of Shares derives profits from an enterprise, whether as entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise other than as an entrepreneur or a shareholder, which enterprise is, in whole or in part, carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands, to which Shares are attributable; or
- (ii) the holder of Shares is an individual and derives benefits from miscellaneous activities (*resultaat uit overige werkzaamheden*) carried out in the Netherlands in respect of Shares, including, without limitation, activities which are beyond the scope of active portfolio investment activities.

13.3.2 Attribution rule

Benefits derived or deemed to be derived from certain miscellaneous activities by, and yield basis for benefits from savings and investments of, a child or a foster child who is under eighteen years of age are attributed to the parent who exercises, or to the parents who exercise, authority over the child, irrespective of the country of residence of the child.

13.3.3 Gift Tax and Inheritance Tax

No Dutch gift tax or inheritance tax is due in respect of any gift of Shares by, or inheritance of Shares on the death of, a holder of Shares, except if:

- (i) the holder of Shares is a resident or is deemed to be a resident of the Netherlands;
- (ii) at the time of the gift or the death of the holder of Shares, such holder of Shares has an enterprise (or an interest in an enterprise) which is, in whole or in part, carried on through a permanent establishment or permanent representative in the Netherlands to which the Shares are attributable; or
- (iii) the Shares are acquired by way of a gift from a holder of Shares who passes away within 180 days after the date of the gift and who is not and is not deemed to be at the time of the gift, but is, or is deemed to be at the time of his death, a resident of the Netherlands.

For purposes of the above, a gift of Shares made under a condition precedent is deemed to be made at the time the condition precedent is satisfied. For example, and without being exhaustive, an individual who has the Dutch nationality is deemed to be resident in the Netherlands at the time of his death or the making of the gift, if he resided in the Netherlands at any time during a period of ten years preceding the time of his death or the time of the gift. In addition, as a further example, and without being exhaustive, any individual who has been resident in the Netherlands and who has made a gift within a period of one year after he has taken up his residence outside the Netherlands, is deemed to be resident in the Netherlands at the time of the gift.

13.3.4 Other taxes and duties

Save for capital tax which will be payable by the Company, no capital duty, turnover tax, or any other tax or duty (including stamp duty) is due by or on behalf of a holder of Shares in respect of or in connection with the sale and transfer of the Shares.

13.3.5 Value added tax

No Dutch value added tax will arise in respect of any payment in consideration for the acquisition, ownership and/or disposal of Shares.

13.3.6 Registration taxes and duties

No Dutch registration tax, transfer tax, stamp duty or any other similar documentary tax or duty, other than court fees, is payable in the Netherlands by a holder in respect of or in connection with (i) the subscription, issue, placement or allotment of Shares, (ii) the enforcement by way of legal proceedings (including the enforcement of any foreign judgment in the courts of the Netherlands) of the documents relating to the subscription, issue, placement or allotment of Shares or the performance by the Company of the Company's obligations under such documents, or (iii) the transfer of Shares.

13.3.7 Residency

Subject to the exceptions mentioned above, a holder of Shares will not become a resident, or a deemed resident, of the Netherlands for tax purposes, or become subject to Dutch taxes, by reason only of the Company's performance, or the acquisition by a holder of Shares (by way of issue or transfer to it), holding and/or disposal of the Shares.

7.1 VPS' liability

In accordance with article 9-1 of the Norwegian Act Concerning the Registration of Financial Instruments ("The Securities Registry Act") (Office translation):

"The Central Securities Depository is liable for financial loss inflicted on anyone as a result of errors that occur in connection with securities registration operations. This does not apply in the event that the Depository proves that the error is due to circumstances outside the Depository's control, the consequences of which the Depository could not reasonably be expected to avoid or surmount.

The Securities Depository is liable for other financial losses in the event that such loss is due to negligence on the part of the Depository or another entity for which the Depository is answerable.

The liability for damages as specified in the first sub-article above only applies to direct losses and such liability is in any event limited to a maximum of NOK 500million for any individual error".

As regards liability for other losses, in its business terms and conditions VPS has confined this to only apply to direct losses ensuing from events within VPS' control and limited to a maximum of NOK 2.5 million per wrongful act or omission. In addition, VPS operates with a deductible of NOK 10,000 per damage event.

The Company may have the Registrar, as Registrar for the Company, present any claims the Company has against VPS. The Registrar may only be held liable for such errors committed by VPS on the terms in clause 7.4.

In the event that the Registrar does not receive full settlement from VPS due to the deductible, the Registrar may demand payment of the corresponding amount from the Company.

- 7.3 A party cannot under any circumstances be held liable for any loss attributable to circumstances beyond that party's control, including:
- a) errors committed by others, including errors attributable to sub-suppliers, incorrect or incomplete information from VPS, the other party, VPS-Shareholders, VPS-Shareholders' registrars or investment firms, or

- b) power failures, errors in or outages of electronic data processing systems, telecommunication networks etc., fire, water damage, strike, changes in legislation, orders or injunctions issued by the authorities or the suspension or cessation of monetary or securities settlements.

Promptly upon receipt of such request, the Registrar shall, at the expense of that VPS-Shareholder sign all documents and do all such things as are reasonably necessary to have that VPS-Shareholder registered in the Company's Shareholders Register as the legal owner of such Shares. In order to enable the Registrar to terminate the VPS Shares, such VPS Shares must be transferred to a VPS account as determined by the Registrar. The VPS Shares must be transferred to the Registrar prior to the Registrar taking any actions as described in this clause.

9.3 A shareholder registered directly as legal owner of Shares in the Company's Register of Members may at any time request that, at the expense of that shareholder, the Registrar arrange for that shareholder to be registered in the VPS-Register as owner of VPS Shares against the Registrar being registered in the Company' Shareholders Register as legal owner (as nominee) of that number of Shares. Each supervisory director has the right to cast one vote. In case of a tie the vote of chairman shall decide. In case of absence a supervisory director may issue a proxy, however, only to another supervisory director.

A supervisory director may not take part in deliberations and the adopting of resolutions if he has a direct or indirect personal interest in them which conflicts with the interests of the company and its business.
